

“WE’LL KILL ALL PRISONERS,”  
IS STANLEY’S DECLARATION.

Dynamiter Shouts for Bloody Action and  
Again Deserts Mexicali Camp.

Insurrecto Anarchist Quits Fellow and Sets Off for  
Algodones to Capture and Slaughter Mexican Customs  
Officials, Announcing Intention to Blow Up More  
Bridges.

[ASSOCIATED PRESS NIGHT REPORT.]

MEXICALI (Mex.) March 13.—Declaring that he wanted action and wanted it quick, William Stanley, now wearing the title of general, independent of Leyva and Berthold, again quit camp tonight to wage warfare of his own to the east of here.

Before leaving he issued a manifesto in which he accepted the Diaz suspension of the constitutional guarantee, and in reply declared he would shoot every Mexican official or army officer captured.

“To slaughter prisoners of war is against all civilized laws,” he said, “but that is what Diaz’s declaration means. We have blown bridges and cut wires when war exigencies warranted. If we are to be killed for that, captured, then on our part it is to be tooth for tooth and eye for eye.”

Stanley’s first objective is Algodones. The Mexican customs officials who left Calexico last night for there will be the first to be killed if they fall in the hands of the insurgents.

Stanley reiterated that he would blow up more railroad bridges, and if the necessity arose he would protect American property and irrigation work.

AMERICANS ON WATCH.

Capt. J. H. Griffith of the Eighth Infantry took out half a company for scouting to the northwest, in the hope of finding smugglers of arms and ammunition. He found well-marked trails in the brush to keep a further watch for them.

The insurrecto camp was alarmed early today by the report that a Mexican force was coming to attack them through Yuma. The rumor was started by the Mexicans, formerly officials in the customhouse here, who have been at Calexico since the occupation of the insurrectos has relieved them of their positions, and who left Calexico for Yuma yesterday with the announced intention of meeting the Federals.

The rumor caused a hasty calling in of the rebel outposts, and was responsible for the appearance in Mexicali again of “Gen.” Stanley, the American who was driven out of the rebel camp about a week ago by Berthold and Leyva. Stanley was re-installed in his command, and now claims more authority than Berthold.

What’s Next?

BATTLESHIPS ARE RECALLED  
FROM CUBA; MARINES REMAIN.

[ASSOCIATED PRESS NIGHT REPORT.]

CIMANERA (Cuba.) March 13.—The First, Third and Fourth divisions of the American Atlantic battleship fleet, sailed for Hampton Roads last night. The Fifth division and the marines remain here.

The battleship fleet got away from here at 5 o’clock in the afternoon. Rear Admiral Stanton in command of the Fifth division, which arrived this morning, said he intended to carry out an extensive programme of exercises afloat and ashore. He did not know how long his squadron would remain.

The marines, in all 2100 men, are now camped and have been organized into two regiments, under command of Col. I. W. T. Walter.

The battleships are returning home in accordance with the pre-arranged plan, having concluded the maneuvers in which they have been engaged for the last few weeks in Guantanamo Bay.

The vessels are the Connecticut, Delaware, North Dakota, first division; Minnesota, Idaho, Mississippi and Vermont, third division; and Georgia, Nebraska, Rhode Island and Virginia, fourth division.

The Delaware of the first division, was detached some time ago and is at Valparaiso. The Michigan, of the first division, proceeded to Hampton Roads some time ago.

DICKINSON SCOUTS IDEA  
OF INTERVENTION.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, March 13.—Jacob M. Dickinson, Secretary of War, will not sail for Panama today on a canal inspection trip, as he had planned to do, unexpected complications having arisen in the pending negotiations between the Panama Railroad and the steamship lines, which necessitated his remaining in this city over tomorrow at least.

Secretary Dickinson was emphatic in declaring the Mexican situation was not influencing his plans in the slightest degree.

He declared there would not, in his belief, be any movement of American troops across the border, and that intervention was not being contemplated.

DISCUSSES PANAMA RATES.

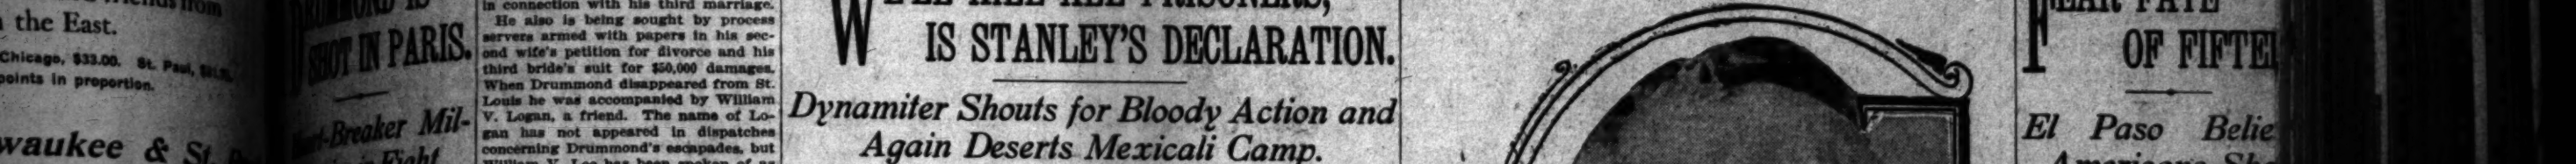

Secretary Dickinson arrived at the office of the Panama Railroad Company this morning where he was engaged with the vice-president of that company and representatives of the California-Pacific Steamship Company, and the Pacific Mail Steamship Company in regard to the new arrangement.

thold or Leyva, saying that he holds an independent commission from the junta at Los Angeles.

RANCHERS ALARMED.

The possible destruction of the entire irrigation system of the Imperial Valley in California, at the hands of two of the factions of the rebel army of Mexicali, is again alarming ranchers and residents. Ranchers arriving in Calexico today expressed much uneasiness and openly stated that if the insurrectos even threaten the dam being built by the United States government under direction of Col. Ockerson, the United States army engineer, south of Yuma, or any other vital part of the irrigation system, that they would arm themselves and drive the insurrectos out of Lower California.

Americans Sho

Efforts Being Made to  
Information Regarding  
the Prisoners.

No Word Obtained of  
position of Men Captured  
at Casas Grandes.

Couriers Sent Into Mexico  
Get Names of Soldiers  
of Fortune.

[ASSOCIATED PRESS NIGHT REPORT.]

EL PASO (Tex.) March 13.—It was learned late tonight that the courier was to be sent to the outlying leader, the following was handed to the junta, with a request that it be forwarded to Madero:

“Will you please get the names of the Americans said to have been prisoners at Casas Grandes? please state what disposition was made of the American prisoners, if information is available to you.”

That the fifteen Americans prisoners by the Mexican troops at the battle of Casas Grandes have been shot is the belief expressed in El Paso tonight.

Efforts to reach the military authorities at Casas Grandes have failed. MADERO IS NEAR.

Madero, under whom the fight, is still within a few miles of the place, but, according to the identical messages sent here by him, he has been unable to reach the fate of his men.

Madero has been asked to state the names of the men, but the courier who took this message has not yet returned.

Casas Grandes is 150 miles from El Paso and the messenger is still on foot.

INSURRECTO SLAMS MEXICO.

Gonzales Garza, Secretary of the insurrectos, in charge of the junta here, said tonight: “There is no doubt that the Americans have been taken out and under the martial law the Mexican authorities would feel perfectly justified in shooting them, basing their action upon the fact that the men caught in actual battle. All along Diaz government has been ignoring rights of prisoners of war and would be only too anxious by a show of this sort to discourage any Americans from joining our ranks.”

REFUSES COMMENT.

A military authority at Juarez night refused to comment on the fate of the Americans.

Asked whether a report would have been sent to Juarez if the had been executed, he replied it was not customary for Mexican officers to discriminate among those who taken up arms against the government.

Hope for the safety of the men held out here because of the charge of Col. Cuellar, the Federal commander at Casas Grandes, Col. Cuellar formerly Military Secretary to President Diaz, and is known as a high man. His friends believe he hesitates before executing Americans.

SEPARATION

HASTY CEREMONY OCCURS  
SAN DIEGO HOSTELITY.

Capt. C. H. Harlow of the California Wagon Mrs. Walter Scott Newhall, Los Angeles Social Woman—Sudden Call to Social Changes Plans.

[BY DIRECT WIRE TO THE TIMES.]

SAN DIEGO, March 13.—[Exclusive Dispatch.] Fearing that a call to or to sudden maneuvers would interfere with previously announced wedding plans, Capt. C. H. Harlow of California was married to Mrs. Walter Scott Newhall, a well-known society woman of Los Angeles.

Preparations for the ceremony hurriedly made. Capt. Harlow and bride had intended to be married weeks hence. Wedding cards bearing that date had been sent out and the couple had planned a brilliant wedding in San Francisco, but the sudden transfer of the fleet to San Diego upset their plans.

A dozen or more intimate friends, the couple in the navy set here accompanied them to the green room of the U. S. Grant Hotel, where the ceremony took place in front of a small altar by candle light. The service was held by Chaplain Mills of the Episcopal Church. The rites of the Episcopal Church were observed. Capt. and Harlow will remain in San Diego the present.

# Cities and Towns of Los Angeles County.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

## CITY CAMPAIGN IS WARMING UP.

Candidates for Mayor Organize Fighting Force.

Optimism Characterizes the Views of Both Factions.

Mayor Thunders Ultimatum on the Bridge Matter.

(Office of The Times, 25 S. Raymond avenue.)

**PASADENA, March 12.**—The Thum Campaign Committee of one hundred held a meeting last night in R. S. Allen's office in the Chamber of Commerce building. Dr. Briggs was made chairman, R. S. Allen secretary and W. L. Morrison campaign manager. The appointment of the various sub-committees was left for the officers.

Every single member of the committee congratulated himself over the outlook. They named over different voters and factions which will support Thum. No accurate count was made of the votes promised for Thum but a gross placed it at 25,000. There are but 6000 voters registered and it is presumed that some of the more enthusiastic committeemen must have been either seeing double or else counted them two or three times.

Any way it was a happy meeting and different phases of the approaching campaign were discussed. Some wanted a "kid glove" hand-shaking campaign where the workers will say nice things to the voters, smile at the ladies and kiss the babies all for the sake of Thum, while others were in favor of a strenuous campaign of speechmaking. Several offered to make liberal contributions and it was finally decided to conduct both kinds of a campaign. Therefore the workers will be filled with Thum workers for the next three weeks and in addition there will be a number of public meetings held in different parts of the city.

The consolidation matter was brought up and the committee agreed that it is not a campaign issue. The real issue according to the committee is the Municipal Light Plant. Other matters to be discussed will be civic betterment, Arroyo Seco bridge, public playgrounds, municipal band concerts, Sunday and other kinds.

**METCALFITES ALSO BUSY.**  
All of the anxiety was not confined to the Thum quarters last night, because the Metcalf phalanx was also lined up. This morning Metcalf headquarters will be opened in vacant store building near the First National Bank. Campaign literature, buttons and a whole lot of free advice on the way the city should be run for the next two years will be handed out to all seekers after knowledge. A long list of signatures of consumers of the city's juice been secured favoring Metcalf. In addition George Aspinall, president of the North Pasadena Improvement Association, who was placed on the Thum campaign committee, states positively that he is a Metcalf man. This announcement was a setback for the Thumites and will be used to gain votes for Metcalf.

**BRIDGE GETS SETBACK.**  
The Arroyo Seco bridge matter received a setback yesterday afternoon when Mayor Earley sent a circular letter to members of the Board of Trade Bridge Committee stating that the city will not stand the right-of-way for the high bridge and that unless the committeemen get busy at once and secure the right-of-way for the bridge, he will proceed to get busy on the low bridge. The Mayor and the Bridge Committee have been at loggerheads for some time over the bridge and from present indications, the two sides are near the point of a parting of the ways. However, the committeemen state they will not work at once and try to get the matter in shape as soon as possible. It is generally believed, however, that the matter of voting on the Pasadena share of the bridge will not be brought before the people in the shape of an election until after the new Mayor or is installed.

**WILL HOLD MEETINGS.**  
At the regular monthly meeting of the Board of Education last night it was decided to hold a series of public meetings in different parts of the city between now and March 24 to educate the people on the necessity for a new high school. These meetings will be illustrated with stereoscopic pictures showing the high school buildings and grounds of nearly all of the other cities of Southern California, to show the people what their neighbors are doing in the matter of educational facilities.

It is believed the bonds will carry at the election March 24. Those favoring the bonds are more hopeful than before. It is believed the many allies which are being put up will serve to get the people in favor of a good high school building. The newest site to be put up is the large tract of ground at the corner of North Park and a few days ago, and dreamed of the days when he would be living as master of a great palace in New York, was yesterday arrested and sent to jail as a vagrant by the young lady's papa in order to save his daughter from becoming a nervous wreck.

The young woman is Miss Margarette Graham, the pretty daughter of W. T. Graham, multi-millionaire president of the American Tin Plate Company of New York City. Several months ago the Graham family came to Southern California. Every place they stopped they noticed the hobo dishwasher watching their movements closely and especially those of Miss Margarette. Frank has an appalling appearance and the eyes of a lunatic. So ghastly did he appear that the young woman became hysterical.

Some weeks ago the Graham came to Pasadena and took apartments at the Hotel... (Text continues with details of the case and the woman's condition).

**SCHERER RETURNS.**  
Dr. J. A. B. Scherer returned yesterday noon from Sacramento and stated that the prospects for a greater Throop are brighter than ever before. He stated that, for the present, the fight will be dropped to get aid from the State, but that two years hence the matter will be in better shape than ever. He states there are several large endowments in prospect to keep the institution as it now is.

**GETS JAIL, NOT PALACE.**  
Ferdinand Frank, an Austrian hobo dishwasher, who took up his abode under a palm tree in Central Park a few days ago, and dreamed of the days when he would be living as master of a great palace in New York, was yesterday arrested and sent to jail as a vagrant by the young lady's papa in order to save his daughter from becoming a nervous wreck.

The young woman is Miss Margarette Graham, the pretty daughter of W. T. Graham, multi-millionaire president of the American Tin Plate Company of New York City. Several months ago the Graham family came to Southern California. Every place they stopped they noticed the hobo dishwasher watching their movements closely and especially those of Miss Margarette. Frank has an appalling appearance and the eyes of a lunatic. So ghastly did he appear that the young woman became hysterical.

Some weeks ago the Graham came to Pasadena and took apartments at the Hotel... (Text continues with details of the case and the woman's condition).

tion under a great palm in Central

Park where he could watch the window of Miss Graham. When she would appear on the street or the verandas Frank would try to talk to her making all kinds of signs of love and distress. Each day these frantic protestations became more marked until to save his daughter from a complete nervous breakdown, Graham had the hobo arrested and sent to jail until after the Graham leave for their home in New York City.

BANKS TO MERGE.

It was reported on the streets yesterday afternoon that negotiations are being conducted to consolidate the Crown City National Bank and Pasadena National Bank. Inquiry revealed the fact that such negotiations are under way, but the deal so far has not been consummated. Neither the name of the consolidated bank nor the officers have been made known, but it is generally supposed that J. B. Coulton will be the president of the consolidated bank and that the banking business will be carried on in the rooms of the Pasadena National Bank, at the corner of Raymond avenue and Colorado street, and the same bank will be conducted at the corner of Marengo avenue and Colorado street, the present location of the Crown City National Bank. The reason for the consolidation has not been made known, as both institutions are in a healthy condition.

The present officers of the Crown City National Bank are J. B. Coulton, president; C. W. Duran, vice-president; Albert Mercer, cashier. Officers of the Pasadena National Bank are Henry Newby, president; J. H. Woodworth, vice-president; Isaac Bailey, president; E. J. Pyle, cashier. If the proposition goes through, the consolidated bank will be the strongest in the city, with a capital of \$200,000, surplus, \$75,000; deposits, \$2,018,000.

ANNANDALE ELECTIONS.

The annual election of the Annandale Country Club was held yesterday afternoon at the clubhouse. The directors elected were Howard E. Huntington, C. N. Post, S. N. Hinds and A. E. Edwards, for three years; G. F. Kanpe, for one year. Following the election, the directors of the club elected for the next year were George A. Weber, president; Samuel P. Hinds, secretary; E. Edwards, treasurer. Later the proposition goes through, the consolidated bank will be the strongest in the city, with a capital of \$200,000, surplus, \$75,000; deposits, \$2,018,000.

**WETTERHAUSER BUYS HOME.**  
Frederick Wetterhauser, the multi-millionaire lumber king of Minneapolis, yesterday afternoon completed the purchase of a beautiful home, where he had become the owner of the estate. The property is the elegant home recently built in Oak Knoll, by L. V. Harkness, on South El Molino avenue. The house is a two-story structure situated on eight acres of ground beautifully laid out in gardens and planted in various shrubbery and flowers. The consideration was reported at about \$60,000 and the deal was made by David Blankenhorn & Co., Mr. Wetterhauser's agent. He came to Pasadena several weeks ago to spend the winter. They took the home of Mrs. John Hugs on South Grand avenue, which they will occupy until the new home has been put in shape. The house was recently completed by Harkness and it was reported that he would live in the home. When Mr. Wetterhauser came to Southern California this winter his health was reported in bad shape, but it has since he came. It is mainly for this reason that he has decided to make Pasadena his permanent home.

## MAN DISAPPEARS MYSTERIOUSLY.

ATTENDS CHURCH AND TAKES CAR TO THE COUNTRY.

Fifteen Men Spend the Day Searching the Countryside But Far No Trace of Him Has Been Found. Friends Believe That Some Disaster Has Befallen Him.

SAN PEDRO, March 12.—J. M. Richardson, aged 32 years, has disappeared in the most mysterious manner and relatives and friends are convinced that something serious has occurred. The old man went to church Sunday as is his custom and when the service was over, he took a car for home.

Instead of getting off at the stop nearest his home he remained on the car until it reached some distance from the city, when he signaled for a stop, and disappeared down the road. Since that time nothing has been heard of him nor can any trace be found.

Fifteen men spent the day searching the surrounding country, but up to a late hour tonight had no clue as to his whereabouts. Friends believe that he was temporarily unbalanced when he left.

FOURTH EVENT OF THE COURSE.

Walter McIntock, Who Formerly Lived With Blackfoot Indians, Makes a Talk on Their Habits.

**CLAREMONT, March 12.**—The fourth event of the Claremont music and lecture course took place in Holmes Hall Saturday evening. Walter McIntock of Pittsburgh gave an illustrated lecture on the Blackfoot Indians. Mr. McIntock has lived among these Indians for fourteen years, so that his talk proved to be a extremely instructive as well as interesting.

The annual elections of the Y.M.C.A. and Y.W.C.A. took place this week. The two presidencies are considered to be among the highest honors in college. The officers are as follows: Y.M.C.A. Shirley Shaw, president; Floyd Lorber, vice-president; Harold Billings, secretary; Alfred Woodford, treasurer, and Donald Fox assistant treasurer. Y.W.C.A. Georgia Hawkins, president; Ethel Geier, vice-president; Virginia Hill, secretary; and Eisle McConnell, treasurer.

NEWS BRIEFS.

The flood water coming down from San Antonio Canyon has washed out the county road between this place and Upland. The new bridge for the road is now being built.

The flood water coming down from San Antonio Canyon has washed out the county road between this place and Upland. The new bridge for the road is now being built.

Mod Lights.

## YACHTSMEN PLAN FOR REGATTA.

Experience Trouble in Arriving at Long Beach.

Two Sailors Have Stormy Trip to San Diego.

Storms Toss Tiny Craft Not Sufficiently Manned.

LONG BEACH, March 12.—The identity of the unknown boat which lay off shore last night displaying red and white lights at intervals was established at daybreak this morning, when Bert Coleman of the yawl rigged yacht Winona came ashore in a dory and landed at the jetties walked to the Western Boat Works and secured a tug to bring the yacht into the harbor.

The reason for the red signals was that the yawl had lost her small boat in a storm and being becalmed off shore sought assistance from a tug to get into port and end a tempestuous voyage of three weeks in all kinds of weather.

On board the Winsome besides Coleman and the captain, Francis Hay, were Secretary Harry Dorr and Director Charles Smith of the San Diego Yacht Club who came north to meet with the members of the Sunset Yacht Club and arrange for the regatta this summer. The signals were reported to the police last night but were afterwards lost sight of and it was supposed the vessel had gone on to San Pedro. The crew worked hard all night and this morning found themselves a half mile off the jetties, a drifting skiff cast along and was secured and Coleman made his way to shore for help, which was promptly given and the San Diego visitors soon forgot their troubles of the night in the welcome accorded them by Commodore Mitchell and members of the Sunset Club.

After luncheon at the Virginia the two clubs' representatives got together and arranged for a regatta off Long Beach and intervals during the regatta in July. There will be a race between the two cities and three days racing off each port. A half dozen cups have been promised and the regatta will be the racing dates will be announced later.

The Winsome with Capt. Hay and Bert Coleman left for three days for a cruise to San Diego with only two men aboard where six are required. They got tangled in a brisk southwest wind and for several hours they were tossed about under full canvas being unable to reef a sail. After the storm they were becalmed a day and then met black squalls and for three days the fifty foot boat rode waves which were twelve and fifteen feet high. They finally reached San Diego where they were speedily made to forget their troubles.

STREET PLANS.

Property owners on Pine avenue between Green and Fifth streets have started a movement looking to the improvement of the thoroughfare between the points named. Among the changes planned and which will be taken up by the Council is the extension of the twelve foot sidewalk to fifteen feet to relieve the congestion of pedestrians, the placing of all wires in the ground, the erecting of a cluster light four to a block and the removal from the street of all teams and autos.

RECRUIT COMPANY.

According to instructions which have been received Company H will be recruited at once to its full strength of sixty men. Preference will be given to men who have seen regular service heretofore. The men who are to be recruited are to be ready to answer a call at any moment and this is thought to mean active duty within forty-eight hours. According to reports the company is in excellent shape regarding equipment, everything necessary being on hand.

GAS EXPLOSION.

Mrs. Edgar Hake, living on Elm avenue, had a narrow escape when she attempted to light the oven of her gas stove. The oven was full of gas and an explosion occurred which tore the oven to pieces, knocked out a screen door in the living room and hurled a teakettle into the woman's face. Her face and arms were burned and scalded and she was painfully bruised. The explosion was caused by a gas leak and the woman was knocked from the wall.

STORM BRINGS HOUSE.

The storm water of last week which flooded the northwest section of the city did some good in that it furnished residents along the banks of the stream with several hundred feet of lumber and firewood and Henry Barnes secured a portion of a good sized two-room house which stood in his farm and which he will utilize in the future.

GLENDALE REVIVAL SERVICES.

Members of Temple Baptist Church Conducting Successful Revival at Glendale This Week.

**GLENDALE, March 12.**—Mr. and Mrs. Charles Potts, prominent members of the Temple Baptist Church of Los Angeles, are conducting the music at a series of evangelistic meetings being held at the First Baptist Church of this place. Mr. and Mrs. Potts returned recently from a tour of Australia and New Zealand, which they took in company with Rev. Dr. J. Q. A. Henry, the noted evangelist, and which occupied more than a year.

The efforts of Mr. and Mrs. Potts are being abundantly rewarded in the series of meetings taking place here. Mr. Potts is a singer of unusually pleasing voice. With his remarkable music he is thrilling the large audiences greeting him at every service, and he is repeating the words with which with which he won a place in the hearts of the people of Glendale at a series of union meetings held a little over a year ago.

The soul-stirring gospel songs by Mr. Potts are accompanied by his talented wife at the piano. Mrs. Potts is unusually gifted with several lines Mr. and Mrs. Potts have been heard quite frequently at the evening services of the Temple Baptist Church, Los Angeles.

The music of Mr. and Mrs. Potts is the support of the powerful, earnest sermons delivered by the pastor of the church, Rev. Eugene Haines. The meetings will continue for several days.

WILL VISIT SUPERVISORS.

Residents of Whittier and Adjacent Town Want County to Build a Bridge.

**WHITTIER, March 12.**—Representatives from this and adjoining territory, will appear before the Board of Supervisors Tuesday morning and ask for an appropriation to construct a steel bridge over the San Gabriel river to take the place of the one recently destroyed by the floods.

They will also ask for the immediate completion of the repairs on the new river bridge which has been in a state of "being fixed" for some time. Whittier is inaccessible to the outer world and the outer world is inaccessible to Whittier over the county roads. By walking across a foot-bridge citizens can take the car to Los Angeles and the partial service having been started this morning.

Valuable.

## GEOLOGIST IS SUCCESSFUL.

GATHERING SPECIMENS FOR BELLOIT AND POMONA COLLEGE.

Professor Buell is engaged in collecting for the Wisconsin College and the California School. It will be of considerable value as an Educational Exhibit.

**POMONA, March 12.**—Prof. C. Buell, who is out here from Beloit College preparing the Rivers' collection of California geology, half for Beloit and half for Pomona College, is progressing steadily in his work.

This collection, which was equally purchased, equals that of the University of California, for which Prof. Rivers was at one time collector. The latter was also a companion of Huxley and this large private collection contains many specimens of the only types in the country. They were gathered from San Diego to Santa Barbara and the foundation of a great geological collection.

Every fossil that has ever been described in California is in the collection which consists of 100,000 specimens. As is well known, all of the oil, metal and water development in California is the outcome of geological conditions in the State, and the importance of the work which Prof. Buell is doing for Pomona College and Beloit is therefore apparent.

The Pomona Woman's Club was entertained at the home of Mrs. H. A. Mifflin on West Center street, this afternoon.

Mr. and Mrs. Frank H. Oiler and family have moved from their former home on West Fifth avenue to their new home in Alvarado Court, formerly owned by R. M. Davis.

Mr. and Mrs. Leonard Boyd have returned from their honeymoon trip to Northern California.

Mr. and Mrs. E. F. Parker passed Sunday at the home of Mr. Parker on West Center street, in Pasadena.

Mrs. L. H. Frewitt of Lexington, Ky., is in the city on a visit to her daughter, Mrs. Frewitt has many friends here, where she passed many winters in seasons gone by.

The remains of Elijah Q. Wildman, who died here last week at the age of 35 years, are being taken to Alwood, for interment. The remains were taken to Alwood by the funeral home of C. Wildman. The deceased was the father of City Treasurer Wildman.

The Brotherhood of the First Methodist Church of this city has elected J. L. Chandler, president; J. R. Yost, H. Suit, A. B. Avis, Frank Feist, vice-presidents; C. Stormont, secretary; William Cunningham, treasurer; Rev. L. D. Van Arman, chaplain.

The officials of the Pacific Electric Company are planning a thirty-minute schedule for running the cars between this city, Claremont and Upland. Large new cars are being put on the line, which is enjoying a large patronage.

Rev. E. Stanton Hodgins of the First Unitarian Church of Los Angeles addressed the Outlook Club here at the local Unitarian church this evening on "The Religion of Darwin and Lincoln."

President E. C. of the Bureau at the Pomona Valley Hospital has returned from an extended visit to his former home at Toronto, Canada, where he was unhurt.

Mrs. E. Barrett of Los Angeles has been the guest of her sister, Mrs. C. Johnson of West Hill avenue, for a few days.

WOMAN EDUCATOR IS DEAD.

Former Supervisor of Music in San Pasaden School Dies in San Diego.

**SOUTH PASADENA, March 12.**—News has been received in this city, of the death of Mrs. Blanche L. Foster, which occurred yesterday in San Diego.

Mrs. Foster was supervisor of music and teacher of the first grade in the South Pasadena school for four years, and in the years ago for San Diego and was a native of England. She was a native of London, England, and with her husband came to this country about seven years ago. She was a devoted mother of a little daughter, Catherine, aged seven years, and her mother, Mrs. Caroline Leming, who made her home with her.

A horse attached to a wagon on the east side of the city, became frightened at some boys flying a kite, and ran into a curb and broke its leg and was shot by the marshal. The driver crawled out of the back of the wagon and was unhurt.

The Christian Board of Missions held their monthly meeting at the home of Mrs. J. H. Freeman, corner of Oak and Marengo. The regular program was omitted and the trust given to Mrs. Nina A. Stevens of Hollywood, who gave an able and instructive lecture on "Co-operation of Missions with Temperance," the theme being "A Missionary secretary in every temperance society and every missionary society a temperance society." Mrs. Stevens has been a medical missionary in Japan for the last fifteen years, and has recently returned. She displayed many pictures, showing the artistic work of the Japanese.

The motorcycle officers are making good. They made twenty-five arrests during the month of February, and \$118 in fines was collected from the speeders. February 1910, there were four arrests and fines to the amount of \$115.

The Chamber of Commerce of this city is getting ready to act with the Board of Trade of Alhambra on the matter of securing a cross town car service direct from the business center of Alhambra to this city. At the last Board of Trade meeting in Alhambra, it was proposed to have the line connected with the present Southern Pacific

# Take Care of Your Money.

## Many men handle with not only ability the affairs of business matters.

Professional men—attorneys, physicians, etc.—have entrusted to them the management of their business matters.

Professional men—attorneys, physicians, etc.—have entrusted to them the management of their business matters.

Professional men—attorneys, physicians, etc.—have entrusted to them the management of their business matters.

Professional men—attorneys, physicians, etc.—have entrusted to them the management of their business matters.

Why isn't the money of the busy, hard-working man, who has no time to devote to the management of his business matters, entrusted to the management of a professional man? The answer is simple. The busy man has no time to devote to the management of his business matters, and the professional man has no time to devote to the management of his business matters.

Quick, accurate, and reliable service is given by the bank, and the bank is the only place where the money of the busy man can be safely entrusted to the management of a professional man.

Truly, it is a splendid investment, with these most unusual features:—  
—can be made at any time  
—or added to at will—  
—money available practically on demand—  
—begins to earn at once—  
—at a fixed rate, Four Per Cent—  
—absolutely safe—  
—beyond the influence of market fluctuations or financial depressions—  
—earnings clear, money tax-exempt, interest payable semi-annually—  
—takes only a few moments to open an account—  
—to add to, or withdraw your funds, takes still less time—

## WANT AUTO FIRE ENGINE BONDS.

FIRE COMMISSIONERS ASK COUNCIL TO CALL ELECTION.

Twenty-five Thousand Dollars Needed to Buy Two Engines, a Supply of Hose and Chemical Equipment to Make Property Safe.

**SANTA MONICA, March 12.**—Acting upon the recommendation of the Fire Commissioners, the City Council may soon call a bond election for the purpose of equipping the municipal fire department with automobile fire engines.

The request is for bonds to the amount of \$25,000. With this it is planned to purchase an automobile truck for each of the two stations.

The estimated cost of these, with accommodations for carrying hose and electrical equipment, is \$18,000. The balance of the fund is to be utilized in the purchase of hose and chemical equipment. It is argued in favor of the improved method of fire fighting that the purchase of trucks of this description will result in such a saving by reason of the lower insurance rates that the city will be able to obtain.

Just as soon as the Mayor affixes his signature to the new ordinance this city will be in position to proceed with the vitrified brick paving of such streets as the property owners may desire to improve by that method. The ordinance sets public work of this description at smaller prices. The ordinance calling an election was referred to the committee of the whole.

President E. C. of the Bureau at the Pomona Valley Hospital has returned from an extended visit to his former home at Toronto, Canada, where he was unhurt.

Mrs. E. Barrett of Los Angeles has been the guest of her sister, Mrs. C. Johnson of West Hill avenue, for a few days.

"GET OUT," IS  
BOARD'S WORD.Supervisors Ask the Highway  
Commissioners to Resign.Three to Two Majority  
Makes Request.Caustic Letter of Chairman  
Read in Meeting.

A majority of the members of the Board of Supervisors yesterday adopted resolutions requesting the Highway Commissioners to resign in a body.

The request is an outgrowth of the conflict between the two bodies regarding the retaining of the present chief engineer and the employment of a new one.

The resolution was adopted following the reading of a letter of Chairman Fridham addressed to the board. In part it follows:

**FRIDHAM'S LETTER.**

"The County Highway Commission has filed with your honorable board a communication criticizing the Board of Supervisors for employing a competent engineer for the maintenance of the county highways.

"In answer to this criticism I desire to state that during the month of June, 1910, the directors of the Automobile Club of Los Angeles county, having a membership of 1600 and consisting of our leading citizens and largest taxpayers, invited the Board of Supervisors and the County Highway Commission to a conference concerning the manner in which the county highways were being built under the bond issue.

"At this conference it was unanimous that the Supervisors should secure the services of a practical highway construction engineer to supervise the construction of county highways.

The automobile club agreed to look up such a man at their own expense, and the Supervisors authorized them to do so, and agreed that a salary of \$10,000 a year would not be excessive to a man who could build roads which would be permanent.

"The automobile club induced Mr. F. H. Joyner to come to Los Angeles, and after going over the roads with Mr. Joyner, the members of the Board of Supervisors and directors of the automobile club were convinced that Mr. Joyner was the man they were looking for, and an agreement was entered into, employing Mr. Joyner at a salary of \$10,000 per year.

"During January last the chairman of the Highway Commission was requested to bring about the change as outlined at the conference in June and he agreed that Mr. Joyner should succeed Mr. Loder, but asked for a few days delay in order that he might have a talk with Mr. Loder. I will state that Mr. Marsh and Mr. Hixby were at this meeting and Mr. Hixby vouched for Mr. Loder's concurrence.

"At the following conference, the Highway Commission refused to carry out their promise, thus the employment of Mr. F. H. Joyner.

"I believe that in Mr. F. H. Joyner the county has secured the services of one of the best practical road builders in the county and that he should be put in charge of building our highways and that the Highway Commission should assist the Board of Supervisors to accomplish the desired results immediately.

"The San Dimas quarry being shut down, according to the statement of the Highway Commission to the Board of Supervisors, will compel the county to purchase rock from outside quarries at a greater excess rate if we build faster than during the past year.

"I am informed that the Pacifica quarry in running at its full capacity can supply only sufficient rock to fill present contracts, which will take several months to fill. If such is the case, it would be unwise to let any further contracts until the county is assured that rock can be secured at the rates estimated for the construction of roads.

"In view of the reflection cast upon the veracity of Mr. Joyner, and of the strained relations existing between the Highway Commission and Mr. Joyner and the possibility, owing to this difference, of delaying the construction of our highways which I greatly deplore, it would seem to me that it is in the best interests of the taxpayers, that the Board of Supervisors adopt some definite plan relative to the attitude taken by the Highway Commission toward Mr. Joyner.

**THE RESOLUTION.**

Capt. Manning then introduced a resolution requesting the resignations. Supervisor Nellis interrupted to state that the assertion made as to the Supervisors going over the roads with Joyner during a visit last summer was incorrect. He said that he was chairman of the Board of Supervisors at that time and that he did not even know the eastern engineer was in the city. Supervisor McCabe, commenting, said that there were three members of the old board who knew nothing of the visit. McCabe called for a roll call on the resolution. He and Nellis voted against adopting it, but the majority ruled differently.

The Highway Commissioners have continually declared that they will not resign but assert that they will stay in office until their terms expire. The Supervisors have no means of compelling them to accede to their wishes.

The condition of highway affairs is not changed from a month ago. The officials are still in a deadlock over the letting of contracts for new roads. It is likely that the only improvement work which will be done until next fall will be under contracts which have already been entered into.

Takes Life.

FATHER KILLS SON, BUT  
SAYS HE SHOT TO SCARE.

**R**UNNING to the rescue of his mother, whose life he feared was in danger, Charles Menge, Jr., 22 years-old, living at No. 225 Center street, was shot and almost instantly killed by his father, Charles Menge, Sr., about 2:30 o'clock yesterday afternoon. He died on the way to the Receiving Hospital in the Police Ambulance.

Menge was arrested, charged with murder. He admits shooting his son, but declares he did not intend to kill him, but merely attempted to scare him. He had been drinking heavily.

The arrest was made by Detectives Tom Rico, Roberts, Carroll, McNamara and Plain. Clothesmen, Gliss and Stevens, who obtained the rifle with which the deed was done.

Antonio Menge, a brother, gave the following account of the shooting: "My father said that he was going to get his gun and go after a man who owed him a bill," he said. "Charles and I knew that he had been drinking, and we feared he would shoot some one, so we entered the house and wrestled with him until we twisted the rifle from his hands.

"The rifle was a 30-30 high power, but was not loaded. However, we feared he might club some one, so hurried with it to the back yard to hide it. We had hardly put it away before we heard mother screaming. Charles said: 'I am afraid, Tony, that he will shoot mother. I am going to run in there and make him break away.'

Charles started for the house, but he had hardly gone ten feet before father appeared in the doorway with another rifle in his hands. He barely gave Charles a chance to do anything, but pointed the gun at him and fired.

The rifle was a 44-caliber and the bullet entered the youth's chest.

The detectives who investigated the case declared that the shooting was entirely unprovoked and was the result of the father being intoxicated.

Menge said that his son had attacked him with a rifle, and he fired after warning him to drop it. The detectives say the statement is not borne out by eye-witnesses.

"Charles and I had an argument over a bill a man owed me for papering his house," Menge said. "He wanted me to try to collect it, but when I did not appear to be in a hurry he said I wasn't man enough to collect it. Then the trouble started. I saw Charles with a rifle and I told him to drop it. I then fired at him to scare him."

It was stated by the police yesterday, that a complaint of murder in the first degree will be asked by the District Attorney against Menge, as they have evidence that the second rifle was unloaded, and that Menge loaded the magazine and then ran to the door and shot his son.

## WOOLINE LOSES AGAIN.

United States Circuit Court Dismisses the Petition for the Disbarment of Dist. Atty. Fredericks.

Judge Ross of the United States Circuit Court, yesterday dismissed the petition filed by John W. Gale, through Attorney Thomas Lee Woolwine, asking for the disbarment of Dist. Atty. Fredericks. The magistrate's opinion in dismissing the case follows:

"Under the particular circumstances of this case, the court deems it proper to adopt the practice prevailing in the State courts here, and to decline to entertain the petition filed herein, unless presented on the part of the Bar Association. This action, however, is not to be regarded as a precedent necessarily to be followed in different circumstances. The present petition is dismissed."

SHOP FORCE  
TIME IS CUT.

Eight-Hour Day and Five-Day Week Is Ordered by the Southern Pacific.

An order was issued yesterday by the Southern Pacific for a reduction in the general shop force time to an eight-hour day and a five-day week. This is practically a reduction of ten hours a week for the men employed in the car department. The car men have been working on an eight-hour day, while the men employed in the motive department have been working nine hours a day. The Los Angeles shops employ about 1000 men, about equally divided in number between the car department and the motive department. The order becomes effective today.

"The work has been running light of late," said P. Sheely, superintendent of motive power of the southern district, "hence the order for a reduction in working time. It is not possible, of course, to say how long the order will remain in force. If the work increases the former time schedule may be restored."

The new order, it is said, applies only to the general shops.

HUNGRY FOR A  
SQUARE MEAL.EL MONTE PIGS VICTIMS OF THE  
GARBAGE TANGLE.

Going Out of the Bridge Cuts Short Their Provisions, But Assignment of Alexander's Contract and Alliance Puts Vernon Porks on Rich Diet.

When pigs are not pork, their chief characteristic is appetite. When Contractor Alexander had all the city garbage at his disposal and the Vernon hog raisers could get none, the Vernon pigs could get their share, and the bridge across the San Gabriel was washed out so that Alexander could not ship to his farm, the El Monte pigs squealed.

This much-mooted garbage question is quite as exciting from a pig's point of view as from any one else's—if you can bring yourself to look at it that way. A few days ago Alexander's contract for the best tables in Los Angeles. Today they are lucky if they get a pumpkin rind to lend variety to a strictly uncooked food diet.

The Vernon pigs are long on provisions, but they are nearly all obliged to move their homes before they can get a square meal. The rule which provides that garbage must be moved five miles beyond the city limits before it can be served again, is in force. Modern society is getting so very conventional that even a pig must be careful about his habits.

The price of bacon is explained to some extent by this precarious existence which falls to the lot of pigs. Under a favorable city administration, they raise large families, the cost of living is low, and everything runs smoothly. Then a new ordinance goes into effect about which a pig has nothing to say, the supply of provisions is diverted, and hard times come on.

## ALERT AND WIDE AWAKE

men and women regularly read The Times, "Liner" section, knowing that it contains many opportunities for personal profit and advancement. Small as well as large sums of money can be profitably invested, desirable help and situations obtained, rooms, houses and apartments rented, and every conceivable thing bought, sold and exchanged through the medium of The Times classified advertisements. Today's "Liner" section contains many interesting announcements, several of which it will pay you to answer. Don't overlook them. For the week ending Saturday, March 11, The Times printed 14,319 ads. "Liners" or 2546 more than the aggregate number printed by the four other Los Angeles papers.

Blackstone & Co.  
DRY GOODS

The United Fashion Show is a Los Angeles invention, and the Dry Goods merchants are making it an event worthy the name and of the town of its origin. All Southern California will be in attendance. You will visit the Blackstone exhibit, of course; not once, but many times, if you are all the way we will have on display.

Friday and Saturday this week.

## THE PUBLIC SERVICE.

## SUMMARY OF THE DAY.

A merchant, who attributed his misfortune to a lack of business, was found guilty of cruelty to animals yesterday, as the animal's feet were lame. The first session of the Bureau Court was declared, yesterday, by police officials to be a complete success and the court sessions will be continued.

Judge Wilbur yesterday, appointed five additional probation officers for the coming year. A pending bill will make the probation office cost the taxpayers of this county \$24,000 a year.

R. W. Pridham, chairman of the Board of Supervisors, was made defendant in a damage action brought by Frank D. Lanterman, for \$200 damages, on account of the defendant's alleged failure to repair the La Canada-Verdugo road.

J. S. Goodale, for years one of the principal singers in the Denver Cathedral choir, was sentenced to four years yesterday by Judge Wilbur, for making an assault with intent to rob upon F. U. Young.

The Board of Park Commissioners yesterday, announced plans for extensive improvements at the Vermont and Western avenues to Griffith Park. L. D. Cox of Detroit, Mich., has been appointed landscape engineer of the park system.

## At the City Hall.

## BIG PLANS FOR GRIFFITH PARK.

## PARK COMMISSION PLANS BEAUTIFUL ENTRANCES.

People of Hollywood Asked to Take Part in Beautifying Approaches by Creating Assessment District and Buying Twenty-six Acres of Ground to Open Avenues.

The Park Commission voted at its meeting yesterday afternoon that it would recommend the opening of entrances to Griffith Park at Vermont and Western avenues. The condition was attached that the entrances should be made not less than two hundred feet wide, so that a parking lot could be carried out to make imposing approaches to the magnificent place of ground included in the city's property. Representatives of the Hollywood Board of Trade and the improvement associations of the district were at the meeting to promise their support. They promised to hold a mass meeting next Saturday night to enlist the support of the taxpayers in creating the assessment district. The improvement will cost about \$200,000 and efforts will be made to have it decided upon before May 1, when the city makes up its budget of appropriations for next year.

Commissioner Lippincott outlined the plan for the Griffith Park entrances. "We hope to have," he said, "avenues of approach to the park that will be worthy features of our landscape work there. We should have broad avenues not less than two hundred feet wide, preferably three hundred feet wide, so that we can have room for our parking. There is no doubt but that the railway will be there as soon as we have a park open to the people, and such a line should have a right of way which it should not appear at all from the park or the avenues of approach, but will have openings every few hundred feet, so that passengers may step off and enter through passages in the shrubbery."

"Such improvements as we are planning will mean so much of an improvement to the attractiveness of Hollywood that the people there should consider it an excellent investment to buy the land needed to widen the approaches and dedicate it to the city."

Commissioner Lippincott reported that he had seen Griffith J. Griffith, the donor of the park, who still owns some of the property through which the approaches are to be cut and that Griffith was willing to donate a part of the right of way. The members of the board are anxious to have the approaches made as soon as possible. They have been spending a great deal of time and some money in improving the park, and are anxious to have it opened to the public so that a demand for further development will become popular.

The question of whether to use high school boys or "foresters" in planting trees at the Manual Arts High School on Arbor Day, occasioned some discussion. The Arbor Day Association asked the Park Board to furnish trees for planting around the building and also to have "foresters" to help plant the trees. The Mayor said he judged that by foresters they meant park employees with shovels and that they would not necessarily have to wear green costumes.

Prof. Wilson of the Manual Arts School came in with an offer of assistance from his boys, but the Park Superintendent thought he had better have the holes dug so that the trees would grow. A few trees will be planted in Exposition Park.

L. D. Cox is to be the new landscape engineer for the parks of Los Angeles. He will come here from Detroit, Mich., to take charge of planting trees and shrubs and to make recommendations for beautifying the parks. He is to receive a salary of \$150 a month.

## City Hall Briefs.

Mayor Alexander issued a statement yesterday, calling upon the citizens of Los Angeles to observe March 15, as a day of prayer, asking that each observe it as his or her own conscience may dictate. He explained that the action was in compliance with a request from the Ministers Association and the Church Federation.

The city will make only temporary repairs of the First-street municipal landing at San Pedro, believing that it can be made to last for three or four years, when some more extensive scheme may supplant its usefulness.

The Board of Public Works has recommended that the city turn over Temple Block to Morris Klein to be managed for another year as rental property.

## IS SERIOUSLY ILL.

M. J. Conway, secretary of the local lodge of Elks, was operated on last week for appendicitis by Dr. Ralph Hagan at the Sisters Hospital. He has recovered from the immediate effects of the operation, but there are other complications which keep him in a serious condition. He is improving and doing as well as could be expected under the circumstances. No one is allowed to see him or converse with him.

## At the Courthouse.

## NEW LAW WILL COME HIGH.

## BILL PROVIDING PROBATION INCREASE IN EFFECT.

Judge Wilbur, Who Has Had Management of This Branch of Court Work, Has Appointed Five More Officers for This County. Will Cost Taxpayers \$24,000.

Under the provisions of the new law raising Los Angeles county to the first class, signed by the Governor February 1, Judge Wilbur, yesterday, added five names to the list of probation officers for Los Angeles county. The law would have allowed him to name six additional ones, but he did not go to the limit of his allowance. There were four probation officers under the old regime, including the chief probation officer, Capt. A. C. Dodds, and now there are nine such officers, including the head of the department. The old members of the force were Capt. Dodds, Mrs. Byram, Mrs. McCracken and F. H. Carpenter.

The appointments and salaries fixed were as follows: Capt. A. C. Dodds, chief probation officer, \$225 per month; Mrs. Frances H. Byram, assistant, \$175 per month; Jean McCracken, \$175 per month; Louise Barber, \$175 per month; Mrs. C. J. Shontz, in addition to F. H. Carpenter and F. L. Reyes, at \$125 per month.

There is a bill pending in the Legislature and it has passed the Senate, authorizing the appointment of twenty probation officers in Los Angeles county, and if this becomes a law it will mean that the taxpayers will be compelled to pay not less than \$200,000 a month for the maintenance of the probation system, or at the rate of \$24,000 a year.

The probation work is really under the jurisdiction of the entire Superior Court, but as Judge Wilbur has had the management of that branch of the work for some time, he was allowed to make the selection of probation officers.

## DAMAGE ACTION.

AGAINST SUPERVISORS. R. W. Pridham as Chairman of the Board of Supervisors, was made defendant in an action filed in the Superior Court, yesterday by Frank D. Lanterman, who asks \$200 damages from the defendant for negligence in repairing the La Canada-Verdugo road in the proper time, and now is having that highway torn up, so that it is impassable for vehicles of any description. Lanterman says he is the owner of ten carriages of oranges which he is unable to take to market on account of the impassable condition of that road.

It is also alleged that the plaintiff and other property-owners along the line of the road offered \$200 to the defendant to be used in repairing the road in the proper time, but that he refused to take the money.

Sometime ago, Supervisor Pridham was indicted in damages in Judge Rogers' court for \$11,000, alleged to be due from Wurzburger, on account of the accident that happened near Verdugo. It was charged that the supervisor was negligent in not having the road repaired and cared for. The action brought yesterday is in line with the other litigation.

A bill has been introduced in the State Legislature repealing the law making supervisors financially responsible for accidents occurring in the course of their duties in their various districts.

## RAILROAD MAN.

SENT TO SAN QUENTIN. James E. Wood, a member of the Brotherhood of Railway Trainmen was sentenced to San Quentin yesterday for one year by Judge McCormick. The charge against Wood was forgery, and he pleaded guilty. It seemed from the evidence taken yesterday by the court that Wood forged the name of John Franklin Zopp, a member of the organization, to an order for transportation over the Southern Pacific from Los Angeles to Tucson. Wood tried to work the ticket on a return trip and was caught. The crime was committed February 17.

It was shown that it was the custom of members of the brotherhood to allow less fortunate ones to use their cards calling for transportation, and the court said but for the fact that Wood had stolen a number of articles from Zopp, he would not have sent him to prison.

Pedro Rodriguez, charged with burglary, pleaded not guilty, and his trial was set for the 22nd. B. Gomez, also charged with burglary, pleaded not guilty, and his hearing was set for April 5.

## DERELICT PUT AWAY.

FOUR YEARS IN PRISON. In Judge Wilbur's court, yesterday, L. S. Goodale withdrew his plea of not guilty to the charge of making an assault upon F. U. Young, with intent to commit robbery. The court gave him four years in San Quentin.

Before coming here, Goodale was a bass singer in the Denver Cathedral choir, where he stood high among musicians. But drink wrecked him. A witness had charge of Goodale for some time, by an order of probation from the Police Court, said that the unfortunate man was the worst instance of the mastery of drink over an otherwise splendid manhood he had ever seen. The witness said, "He had been entirely destroyed by his deep potations. It was also shown that he was a victim of epileptic fits from which he suffered when in his cups."

Judge Wilbur declared it would be a mercy to send the defendant to a place where he would be compelled to abstain from liquor. Goodale agreed with him.

F. U. Young, whom he attempted to hold-up and rob, testified that in his opinion Goodale was not drunk when he threatened to shoot him.

## AFTERNOON WORK.

IN JUDGE MCCORMICK'S COURT.

Under the provisions of a new arrangement for the disposition of business in Judge McCormick's court, the arrangements, pleas and sentences in all criminal cases will be disposed of in Department Twelve, at 2 o'clock each afternoon. It has heretofore been accomplished in the morning.

The change has been made necessary

for Police Judge Chambers they were fined \$5 with the alternative of spending five days in jail. The result and the court will be continued.

Hereafter it will be a more serious thing when drunks are made to appear in the regular session of police court as they will then be considered habitual offenders.

All the prisoners released yesterday morning appeared very grateful and six stated that they would have lost their positions had they been made to wait for the regular court session.

## COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS. HEAVY DAMAGE ACTION. The Southern Pacific Company, was made defendant in a suit filed in the Superior Court, yesterday, by Gertrude J. Jones, in which the unusual amount of \$107,575.50 as damages is prayed for. On September 4, 1910, according to the complaint, the plaintiff took a train at Oakland en route for Truckee. It is alleged that she was trying to enter the car the train was suddenly started, precipitating her to the ground. Severe physical injuries were sustained.

INCORPORATIONS. Articles of incorporation were filed yesterday by Grace Church Association, Incorporated, Dunliff S. Benedick, C. M. L. Hill and Sallie Jean Benedick. Clark Electric Company, Incorporated, capital stock, \$25,000, incorporated, Dennis A. Warner, Charles Clark and Charles Casat Davis, subscribers, \$200; Educational Investment Company, Incorporated, capital stock, \$20,000, incorporated, F. P. French, T. H. Fillmore, J. W. Davis and C. H. Hill, subscribers, \$200; Valley Alfalfa Growers' Association, capital stock, \$5000; incorporated, Otis Jones, D. H. Dunliff, C. W. McConnell, H. W. Rouse and W. S. Smith, subscribers, \$50; Cold Brook Camp Company, capital stock, \$50,000, incorporated, E. H. Spencer, A. H. Spencer, M. C. Dawson, J. A. Miller and J. E. Mohl, subscribers, \$5; H. W. Ritz Company, capital stock, \$100,000, incorporated, H. W. Ritz, C. P. Ritz, J. L. McCall, P. H. Bivens and H. A. Cole, subscribers, \$100; California Shoe Manufacturers Company, capital stock, \$100,000, incorporated, W. W. Davis, Fred Harris, H. Billings, Harry Shoemaker and B. J. Bradner, subscribers, \$200; Gas Securities Company, capital stock, \$500, incorporated, Roy D. Wheeler, C. S. R. Forney and Roy D. Wheeler, subscribers, \$500.

SUIT FOR DEATH OF SON. An action was filed by Mary M. Gabrielson against the Los Angeles Gas and Electric Corporation, yesterday, to recover \$50,000 alleged to be due on account of the death of Curtis E. Gabrielson, a son of the plaintiff. The boy was an employee of the defendant company. On December 15, 1933, while at work, he fell at the corner of Commercial and San Pedro streets, he fell to the ground and was killed. It is alleged that the company was negligent in not knowing the fact.

INFORMATIONS. The following informations were filed in Judge Wilbur's court, yesterday, the accused to be arraigned tomorrow morning: Frank D. Lanterman, charged with negligence in repairing the La Canada-Verdugo road; Joseph Cox, forgery; Francisco Martinez, assault with a deadly weapon; Walter Hester, forgery.

DESIRE TO SELL. The Board of Trustees of the Church of Christ of Pomona, filed in the Superior Court, yesterday, for permission to sell the property of the corporation, it being set out that an advantageous disposition can be made of it.

ASK TO MORTGAGE. A petition was filed in the Superior Court, yesterday, by the Los Angeles Free Presbyterian Church of Alhambra, to mortgage the premises for \$1000.

TO ADOPT. John William and Lucia H. Mason led a petition for the adoption of Lowell Howard Mason, a 12-month-old child, whose parents were unknown.

## The Interior Courts.

## JENNIE'S STYLE DUE TO SORE FEET.

## MULE HAD HOBBLE WALK BUT SIDEBONES DID IT.

Owner Tells Court, Animal's Peculiarity Is Simply Due to Her Cautious Temperament, But a Veterinary Surgeon Says It Is Nerveless Disease; Is Convicted of Course.

Because Jennie, "the stylish mule," insists upon walking as if she had a hobble skirt on, E. H. Miscal of the Miscal Line Company, was found guilty yesterday morning of cruelty to animals.

Representatives of the S.P.C.A. and Miscal disagreed over the reason for Jennie assuming the peculiar "hobble" way waddle and Police Judge Rose after hearing a veterinary surgeon testify decided that Jennie shouldn't walk that way and that Miscal was in error for allowing her to do so. He will be sentenced tomorrow morning.

It was about a year ago that Jennie was first known to be "stylish." Officers Fowler and Fullerton of the S.P.C.A. saw the animal hawking a heavy load and walking as if her feet hurt her. They decided that she was lame and arrested the driver. Miscal appeared to answer to a cruelty charge and when he told the jury which sat in the trial, that Jennie was not lame but was just a "stylish critter," the jury laughed so hard that Miscal was acquitted. Jennie continued to draw loads of coal and to walk queerly so the officers kept their eyes on her.

When Miscal was tried yesterday morning, however, it was stated that Jennie had been performing her job in addition to that her side bones hurt her and that was believed to be cruelty.

Before finding Miscal guilty, Police Judge Rose said that he would like to see Jennie walk so court was adjourned while the judge walked to a nearby stable where the stable man made a exhibition. Taking little steps hardly more than a foot in length she showed how it was done.

"It was Jennie. Show the judge how you can walk," Officer Fowler said to the animal.

Jennie curtsied with her ears and then walked to the other end of the barn and back taking short steps and rolling like a ship in a heavy sea. The conviction followed.

COURT IS SUCCESS. SUNRISE SESSION BEGINS.

The first session of the Sunrise Court resulted in twenty-three men and one woman being released at 8 o'clock yesterday.

fore Police Judge Chambers they were fined \$5 with the alternative of spending five days in jail. The result and the court will be continued.

Hereafter it will be a more serious thing when drunks are made to appear in the regular session of police court as they will then be considered habitual offenders.

All the prisoners released yesterday morning appeared very grateful and six stated that they would have lost their positions had they been made to wait for the regular court session.

## AIDS SWEETHEART.

SHE WOULD TAKE BLAME. Though she had previously told officers that the money with which her sweetheart, Mariano Chavez, paid the expenses of an outing had been stolen, Demicia Saragossa, a pretty little Mexican girl, denied it yesterday morning and Chavez was released.

According to the story told by the girl, she had been entrusted with \$50 by Andres Flores, Demicia and Chavez thought \$50 was about the right amount needed for a good outing, so they took an early train for San Diego. When they returned the money was spent.

The girl was charged with taking the money and giving it to Chavez after telling him that it belonged to Flores. When she learned that Chavez was in danger of going to prison for having received stolen property she quickly denied her former story and said that she was to blame and that the money Chavez had spent was some that he had stolen from her.

"It wasn't his fault at all," she said when Chavez appeared in court. "I led him astray and I am to blame."

Since the police were depending upon the girl's testimony to hold Chavez, the case was dismissed.

PAKED ARRESTED. ODD CURE FOR PAIN. Juan Gonzalez, charged with embezzlement, will be sentenced this morning, Police Judge Chambers having decided that he is not a proper man to be at large because of his inclination to kill "witches."

According to Desidera Guerrero, Gonzalez posed as a learned physician and endeavored to cure a moderate amount. The treatment was too mysterious to be conducted without attracting the attention of the police and Gonzalez was arrested.

Desidera Guerrero said that Gonzalez went to her home on Commercial street Sunday and declared he could cure her. He demanded \$100, while at the same time he was in a bath of water and then asked that his hands and feet be tied. A few motions were made and he announced that he was in pain. When he recovered he declared that a witch in Ventura was the cause of the woman's illness and that it would be necessary to kill her. He left the house and returned a few hours later and announced the witch's death. More money was then demanded and Gonzalez was then demanded and arrested.

Gonzalez insisted that he was entitled to the money for the treatment intended to make a trip to Hades to get some more medicine.

## PREPARING FOR LAND SHOW.

Exhibitors Rushing Installation of Displays at Shrine Auditorium. Burial Exhibit Star Attraction.

The busiest place in busy Los Angeles just now is the Shrine Auditorium, where carpenters, decorators, exhibitors, and land show officials are rushing thither and yon, pounding and sawing and boosing in the confusion of preparation for the great Pacific Land and Product Exposition, which opens Saturday. Everything, the management states, will be ready on schedule time.

One exhibit, the arrival of which is being awaited with special interest is the Luther Burbank exhibit, which the Santa Rosa Chamber of Commerce, which is to be in charge of Edward H. Brown. This display will be for most visitors to the land show one of the greatest attractions. Burbank will exhibit everything from his spinous cactus, containing all of the elements of food stuffs for stock, to the latest flower freak, the Cinnam Ruby, which produces a lily-like flower the size of a merry widow. The Santa Rosa Chamber of Commerce, which is in charge of the exhibit, states that the exhibit from Bakerfield and its vicinity will be second to none.

Carl R. Williams, publicity agent of the Salt Lake Commercial Club, was another caller. Williams has arranged for the great excursion of the Utah people who will accompany the Governor and other State officials, who are to be present at the land show on Utah Day, March 24.

A record-breaking crowd from San Diego is expected on March 30, which has been set aside as San Diego Day. Dr. F. J. Raven will be in charge of the Panama-California Exposition exhibit from the Southern city.

Times Branch Office. No. 12 South Broadway, fifth door north of Chamber of Commerce Building. Advertisements and publications taken.

Biggest Shoe Value in Town. Anytime shoe company, 222 Mercantile Place.

## EQUITABLE SAVINGS BANK.

FIRST and SPRING.

The Logical Way

An EQUITABLE account receives interest at 4 per cent. COMPUTED MONTHLY. This means that a withdrawal does not affect the interest prior to the first of the month.

The Equitable has assets of Two Million Six Hundred Thousand Dollars, not counting the responsibility of the men back of it. Does a strong, carefully managed bank with reasonable methods appeal to you?

## COURT UPHOLDS ESPEE'S CLAIM.

## Suit to Oust Railroad From Oil Lands Dismissed.

## Holds Private Citizens Can't Go Behind Patents.

## Instrument Would Be Delusion Instead of Monument.

Judge Rose of the United States Circuit Court held yesterday that the persons who instituted proceedings for the purpose of ousting the Southern Pacific from oil lands valued at millions of dollars have no standing in court.

He laid down the principle that private citizens cannot go behind patents issued by the government, as long as the government itself has not caused such patents to be set aside. This was only one ground upon which he upheld the demurrers of the railroad to the bills of complaint, but he indicated that this would have been a sufficient reason, if it were alone.

The chief complainants were George I. Roberts and Edmund Burke. They acquired the assignments from persons who alleged that they were working mineral claims at the time the Southern Pacific acquired the public domain, under grants of Congress.

Many sections of the land which were given the company by the government have been discovered to be extraordinarily rich in oil and their value is difficult to estimate.

The attack upon the title of the railroad, which was backed by a Federal patent, was on the ground that the demurrers of the railroad to the bills of complaint, but he indicated that this would have been a sufficient reason, if it were alone.

Judge Rose's opinion, with the exception of many quotations from leading cases in the Federal and State courts, follows:

"Stripped of the mass of irrelevant and redundant assignments contained in the pleadings, the case presented is this: Can a citizen of the United States, or one having declared his intention to become such, lawfully enter upon and occupy mineral ground land therefor patented by the government to a railroad company under a Congressional grant, such patent, after describing the land thereby conveyed, containing the clause, 'Yet excluding and excepting all mineral lands, should any such be found in the tract above described, to be held by the grantee according to the terms of the statute, shall not be construed to include coal and iron land.'"

"The complainants' alleged rights to the lands in question in this suit were, according to their express allegation, acquired by the complainants after the issuance of patents to the Southern Pacific Railroad Company therefor, at which time they claim to have made mineral locations upon them, and by this suit, the nature of which is variously characterized by their counsel, they ask the court to protect their alleged rights as such mineral locations by some sort of injunctive process, by 'controlling' the patents which were issued by the government, and which they expressly allege conveyed the lands in suit to the land to the grantee therein named."

"If the above-quoted clause inserted in the patents had the effect of excepting from the lands described in the granting clause thereof all of such lands in which mineral might be found; if such has been made as alleged, fifteen years after the issuance of the patents would undoubtedly defeat the grant under which the defendants hold, for the reason that the clause is without limitation as to time, and a determination by a court or jury, as the case might be, at any subsequent date, however remote, that any land described in such land was never within the terms of the railroad grant made by Congress, notwithstanding the fact that the officers of the government, charged with the duty of inquiring into and determining the question and of issuing the government patent for the lands granted, had issued such conveyance."

CONTENTION NOT SOUND. "A mere statement of the necessary consequences of the complainants' contention is enough to show that it cannot be sound. It would make of the patents a mere nullity, and instead of a monument of title designed for the peace and security of those holding under them. Undoubtedly, if the lands in suit were known to be mineral lands at the time they were acquired by the railroad company under the Congressional grant to it, and if the patenting of them was, as alleged by the complainants, procured by means of the false affidavit of its land agent, or through any other fraud on its part,

## SECOND ISSUE IS DECIDED UPON.

## Oil Fields Needs Development Money.

## Million in Bonds Offered to Stockholders.

## New News of Interest From Oil Fields.

Oil Fields Company has decided to issue an additional \$1,000,000 of bonds to develop the oil fields of the company. This is the first time that the company has issued bonds since its organization in 1912.

The bonds will be sold at a price of 100 cents per \$1,000 of face value. The company expects to receive \$1,000,000 from the sale of the bonds.

The bonds will be sold in \$100,000 units. The company expects to receive \$1,000,000 from the sale of the bonds.

Company in the Santa Maria district. There are 155 acres in the tract and the price was \$250,000. A cash payment of \$50,000 was made and the remainder is to be paid during the present year.

**Dividends of Listed Companies.**  
The dividends paid by the California Oil Company, which is operating a lease from the Santa Maria district, during the month of February amounted to \$291,537.35, and when the dividends paid by the Mexican properties of the Doherty-Carlson syndicate are added the grand total for the month is \$425,582.54.

**Penn Midway's Good Well.**  
The Penn Midway Oil Company, which is operating a lease from the Santa Maria district, during the month of February produced in its new well recently brought in. It is now doing 800 barrels a day, and the output is going to the independent Producers' Agency. The Penn Midway is a Los Angeles concern.

**Coalinga Royal Is Ready.**  
George B. Porter, vice-president and general manager of the Coalinga Royal Oil Company, will leave today for the Coalinga field, where he will have charge of the development work. The rig and buildings are on the ground ready to start work, which has been delayed by the rainy weather. The company drilled a test well and got a showing of 30 gravity oil. Its property is the east half of section 5, 19-18.

**Company Has Good Name.**  
The Winner Oil Company is the name of a new concern recently organized to drill for oil in that part of the Santa Maria field lying north of the valley in San Luis Obispo county. The company owns in fee simple 140 acres in section 15, 21-14. Alex Murray is president, H. G. Flint, cashier of the First National Bank of Sierra Madre, is a director and Hugh Altink is another director. The Ward-McIntire Company is the fiscal agent.

**The Cost.**  
**MANY BID ON COUNTY JOBS.**

**DETENTION HOME PROPOSALS BEFORE SUPERVISORS.**

**Protest Submitted Over Certified Check Handed in With Offer for Construction of Arroyo Bridge.**  
**Tenders of Broken Stone for County's Improved Highways.**

With the site of the new Detention Home definitely fixed near the County Hospital, the Board of Supervisors yesterday considered the second list of bids submitted for the general construction and heating of the building. For the general construction contract the bids were: Weymouth-Crowell, \$63,770; Charles G. Ross, \$58,598; John B. Dawson, \$66,830; Alta Planning Mill Company, \$57,961; William C. Crowell, \$54,994; Los Angeles Planning Mill Company, \$54,861; Willard-Slater Company, \$54,209; and F. O. Hargrove Company, \$57,148. The matter was taken under advisement.

Bids were received for the plumbing and gas-fitting in the same building: Rowe Bros., \$463; P. M. Parker, \$559; J. Holcom, \$540; Blumve & Jay Company, \$523; Thomas Haverly Company, \$500; Crowell & Sutton, \$456; H. J. Crawford, \$554; Charles Strook, \$600; Leman Bros., \$477; W. D. Newell, \$534 and \$471.30, varying with brand of supplies used; and Duarcio Bros., \$590. The four lowest bids were taken under advisement.

Bids for steam heating, steam cooking and laundry machinery: Thomas Haverly Company, \$1928; American Heating Company, Illinois system, \$6700; Blumve & Jay Company, Webster system, \$7842; Duarcio Bros., Illinois system, \$5294; W. D. Newell, France system, \$7265. These bids were taken under advisement.

Those for an electric burglar alarm system were: Newberry-Benham Electrical Company, \$1928; Southern California Electrical Company, \$1700; P. O. Engstrom Company, \$1750. It was awarded the general contract. Bids taken under advisement.

The Pacific Rock & Gravel Company offered to supply broken stone from its Puentes quarry No. 2 for the construction of Foothill Boulevard, between Arroyo and Monrovia, at 75 cents per ton, 200 tons per day, f. o. b. wagon.

Big Brothers Stone Company offered to build the steps for the new Hall of Records for \$2755. The Acton Quarry Company bid to improve the San Fernando road, between Lincoln and Burbank, for \$1.10 per ton, material to come from the quarry at Acton. These bids were laid over to be considered.

The bid of the Southern California Gas Company of \$100 for a fifty-year franchise to cover the streets of the county with gas piping, excepting certain districts already provided for, called out a written protest from the Municipal League, through N. O. Egerton, its secretary, in which it was advised to give the franchise in sections, on the ground that the company would then feel its obligation to the people, and give better service.

The report of the County Surveyor showed T. J. Shea to be the lowest bidder for the main construction of the Arroyo bridge, at \$146,700, and the Cement Products Company, with \$4170, to be lowest for the pylons. J. D. Kaen, second lowest bidder for the main contract, lodged a protest before the board through Attorney Taft, alleging that Shea's certified check accompanying his bid was only sufficient to cover the guarantee demanded on the main contract, without regard to the pylons. The board took the matter under advisement.

**TORRENT ALARMS RANCHMEN.**  
**Petition Supervisors to Devise Methods of Relief—Board Considers Plan to Mitigate Damage.**  
Many ranchmen residing along the Rio Hondo River appeared before the Supervisors yesterday to seek relief from the torrent which is raging down the mountains. The swollen ranchman has wrought havoc to many banks and spread across the country. Sunday the countrymen were busy with teams and scrapers endeavoring to check the lateral expanse of the rain pranks, making half a dozen new bridges in places in half an hour. have been swept away. Others have been choked that they are serving them into swirling and eddying waters which absorb the fertile upper soil.

Some of the petitioners declared that the remaining bridges should be destroyed so as to permit the flood to dash past their property. Others were of the opinion that the structures should be preserved but that the country should in some manner restrain the wild water. Much of the trouble seems to have been caused by the fact that the bridges have been constructed too low to permit the free passage of the river at high water.

The Supervisors seemed to be unanimous in the opinion that the river

## New Importation

Rare Oriental Rugs

The IRAN CO. has just received a large importation of antique oriental rugs—the finest collection of beautiful rare pieces ever brought to Los Angeles. Lovers of oriental rugs are invited to come and see this unusual collection and are assured of every courtesy and attention.

The Iran Co. is now under the sole management of its original founder, H. H. Khazoyan. The stock is largely new and more comprehensive than ever before. Patrons of this store will be assured in the future, as they have in the past, of maximum values, broadest assortments and capable service.

**The Iran Co.**  
717 South Broadway

must be spanned with arch bridges, which will be of sufficient capacity to accommodate any volume of water which might come. This will be a costly proposition and the officials took the question under advisement, as they do not know how far to raise the funds. They promised the complainants, who were nearly two score in number, that they will be given all of the relief which is possible immediately.

**GANCER AND TUMORS.**

This will be an event of keen interest to every fashionable woman in Los Angeles and vicinity. Special railroad rates of one and one-third fares may be obtained on March 17 and 18. Good for two days. The "Ville de Paris" will display the most advanced ideas in fashions for women from Europe and America. You are especially invited to view the "Ville's" attractive exposition.

**New Silk Dresses**  
In Foulard and Taffeta Silks  
only \$15.00

These beautiful new silk dresses present an opportunity to be fashionably dressed at a modest price.

The foulard dresses are made with the fashionable high waist line, giving the very popular empire effect. The yoke and collar are of net, also the simulated under sleeve. The dresses are piped with contrasting colored silk, some have button trimming.

The foulards are in the ever popular polka dots, of various sizes, and the taffeta silk dresses are shown in stripe effects.

We consider these dresses unusually good values at \$15, and at such a little price it certainly won't take long to dispose of the entire lot.

Be early and enjoy first choice.

**All Rain Coats Reduced**  
The following reduced prices are made to close out this lot of coats:  
\$8.50, \$10.00, \$15.00, \$20.00

**LINGERIE PETTICOATS**  
Splendid Values \$1.50, \$1.95, \$2.95  
at...  
We wish to emphasize the excellent values we are showing in undershirts at the above prices.

**PETTICOATS AT \$2.95**  
These beautiful lawn skirts are made in a variety of styles: One model has a deep flounce of all lace, another has a flounce of lace edging and insertion, and one very effective style has a deep flounce of dotted Swiss and lace, finished with ribbon and beading. Make it a point to visit this section today and see our complete line of petticoats.

## TOZER MAY NEVER PITCH AGAIN AFTER BEING SHOT.

**Horseman Israel Fires Bullets Into Each of Ball Player's Shoulders at Murietta Training Camp and Wounds Lou Guernsey in the Foot—Cause of Shooting Seems Trivial.**

BY LOU GUERNSEY.

LORENCE ISRAEL, in jail at Riverside, stated that he was in his room at the springs hotel at midnight and several ball players were amusing themselves by throwing pebbles against the windows. He grabbed up a twenty-two rifle and started to fire to frighten them away. He saw no one below and had fired several times when a voice shouted up at him: "Point that gun up; you'll shoot somebody!" Tozer went to his room, Israel said, secured a revolver and fired five times at him. A companion knocked Tozer's gun upward so that none of the bullets took effect.

William Tozer: "I guess it puts the kibosh on my whip. I felt today that something was going to happen to my arm. Take me to Los Angeles. I want the best of treatment, no matter what it costs."

Lou Guernsey: "I wouldn't mind if I were shot on the firing line, but to have a race-horse man wing me is the limit. I haven't slept a wink since the shooting."

Capt. Dillon: "Isn't it terrible. Our best pitcher is put out of commission. Just as the season is about to start. I don't think the wound in the left shoulder is a bad one, but the one in the right looks dangerous. I hope he comes around all right. It was an accident, I guess, but that fellow Israel must be crazy to shoot the way he did."

"Bill" Tozer, the crack Angel pitcher, was shot through each shoulder last evening by F. Israel, a Los Angeles race-horse man. The bullets were .33 caliber and caused nasty but not fatal wounds.

Tozer was rushed to Riverside in an automobile, accompanied by Doc Finlay and driver. He suffered great pain while his injuries were being dressed by Finlay, but never uttered a whimper.

The cause of the shooting was a peculiar one. It seems that "Pete" Daley, Tozer, Israel and several guests of the hotel were returning to the new hotel from the dance hall, where a number of the guests had held an informal dance earlier in the evening. Israel retired to his room and some of the boys, including Tozer, decided to awaken him and invite him to take a stroll of a mile or two in the moonlight.

It was a grand night and the boys did not retire to their bungalows as early as usual on this account. Tozer, Daley and several of the other players and guests went around to Israel's room and tossed pebbles at his window. Israel appeared in a few moments in his bath robe and welcomed the boys with a hearty "Howdy. What you doing my noble dukes?" He walked out

on the veranda and the boys were standing down below a distance of ten or twelve feet.

Israel is great on quoting Shakespeare and other famous authors, and he recited several lines from "Macbeth" to the boys, who applauded loudly and called for more. Everybody was apparently in the best of humor. The boys sang several songs and told Israel to hurry up and dress and take a moonlight hike. He said: "Wait a minute until I get my pants and shoes on."

As he uttered the above remark a guest rooming next to Israel said: "Here, take this gun and have some fun shooting into the air."

"All right," said Israel, and he grabbed the gun and fired two or three shots in rapid succession.

I heard the shots and thought some of the boys were shooting in the air for fun and ran down to where the boys were standing a few minutes previously. All of a sudden a shot rang out. I felt a stinging sensation on my left foot. I realized that I had been shot and ran behind a big pepper tree.

TOZER RUNS BY.

Several more shots were fired and I saw Bill Tozer run past me. A few moments later I heard Daley say: "He shot Tozer in the shoulder."

The firing ceased and I ran to see how Tozer was. I thought my wound was only a scratch, but knew by the way Daley talked that Tozer was badly wounded. We helped him to Doc Finlay's bungalow and Doc washed his wounds. He then took off my shoes and socks and discovered that the bullet had gone through part of my foot, coming out at the little toe.

Tozer bled freely, as did my wound. Tozer bore up bravely under severe pain. "I guess it puts the kibosh on my whip," said the big fellow. "I felt today that something was going to happen to my arm."

"We'll take you to San Bernardino," said Finlay.

"Take me to Los Angeles," said Tozer. "I want the best of treatment, no matter what it costs."

The machine was made ready and Tozer was placed in the auto. He was propped in a dozen blankets and wore two sweaters and an overcoat.

OFFERS APOLOGIES.

Before the machine started Israel came out and started to apologize to Tozer, but he would not listen to him and ordered the driver to speed away. Israel said this morning that he couldn't see anybody and was firing up in the air and at palm and pepper trees for fun. He fired about eight shots in all. He was all broke up this morning over the tragedy and made arrangements to rush to Los Angeles to see Tozer.

"Isn't it terrible?" said Capt. Dillon in my room this morning. Our best pitcher is put out of commission just as the season is about to start. I don't think the wound in the left shoulder is a bad one, but the one in the right looks serious. I hope he comes around all right. It was an accident, I guess, but that fellow Israel must be crazy to shoot the way he did."

I suffered great pain all night and haven't slept a wink. I hope to be all right in a few days. I got out with a crutch this afternoon.

Tozer's injury has cast a damper on the spirits of all the boys here. I sure am the hard luck kid. I wouldn't mind if I was shot on the firing line, but to have a race-horse man wing me is the limit. I heard the shooting and

## COUNTRY CLUB IN NEW HOME.

**Removal From City to Tract Near Beverly.**

**Clubhouse the Largest of Kind in Country.**

**Eighteen Holes in Links; Fine Tennis Courts.**

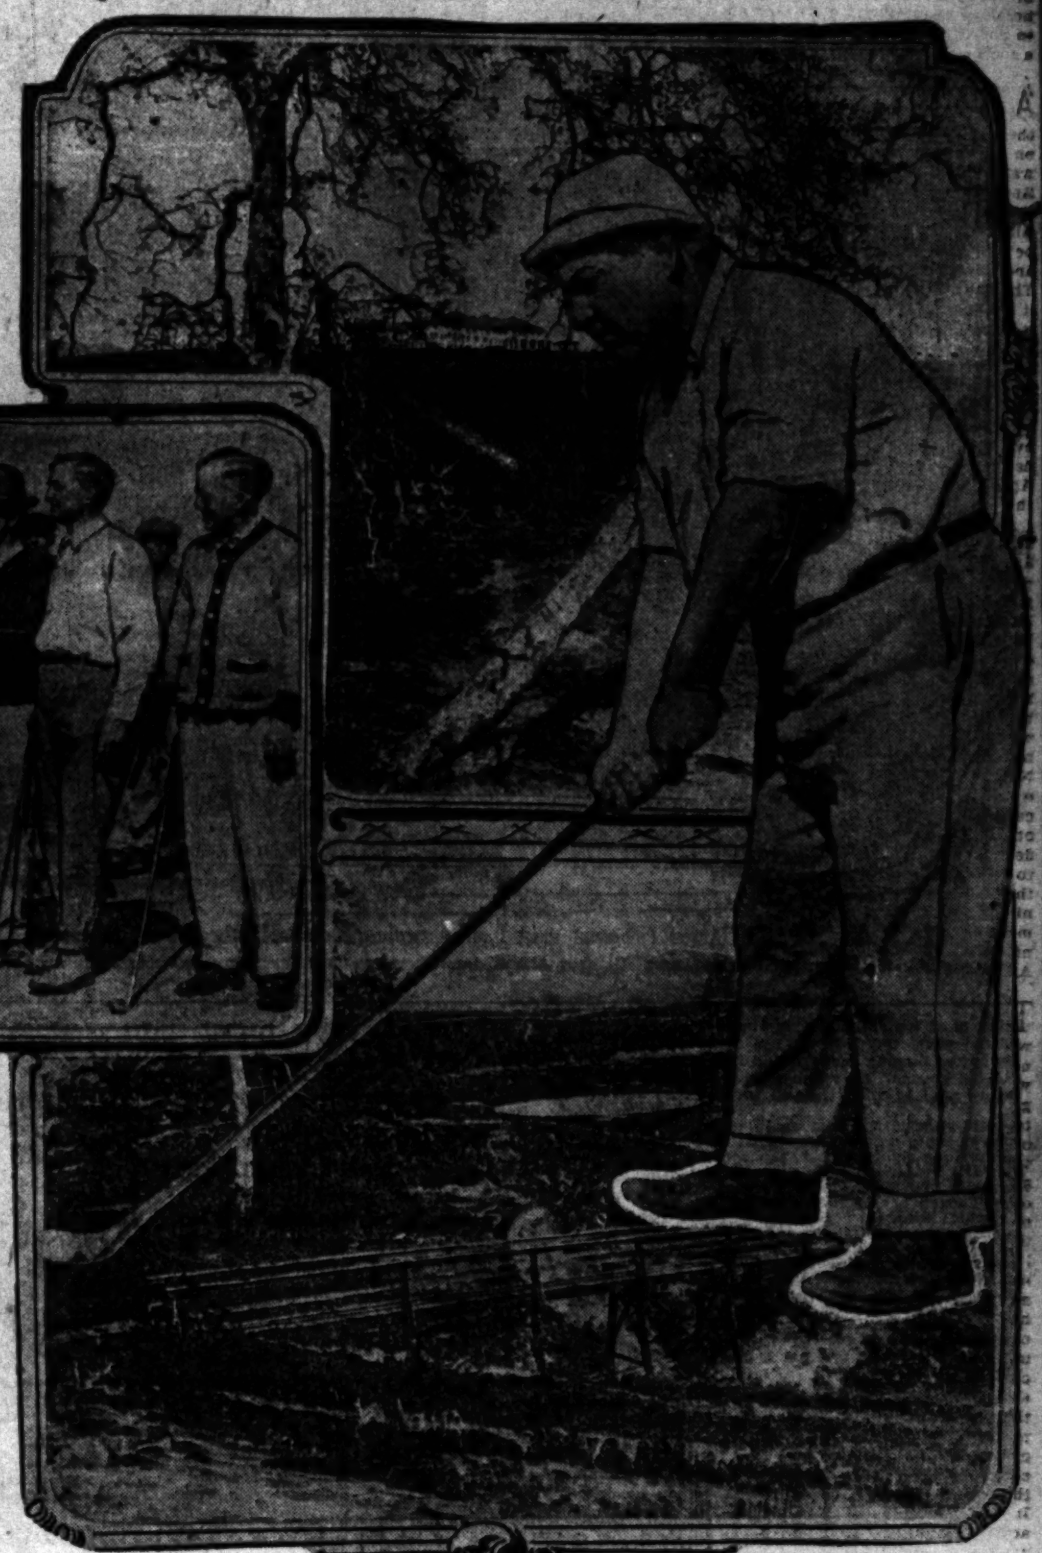

BY WILLIAM FREDERICKSON.

Today begins the removal of the Los Angeles Country Club to its new quarters near Beverly.

For nearly twelve years the club has occupied the grounds at the intersection of Pico street and Western avenue, a location which, at the beginning of that period being far out from the settled district, is now a mile or more within the residence district.

For nearly a year this popular organization has been preparing its new home. Work has progressed so far on the clubhouse and links that accommodations will be provided for golfers, at least, as soon as the equipment can be moved and re-established.

This may take ten days or two weeks, but will doubtless be fully accomplished in time for the scheduled informal opening of the links, April 1.

**Beautiful New Golf Links of Los Angeles Country Club, and Players, who are to defend the honors of the club in the sport. The large figure to the right is that of Ed B. Taft, chairman of the Green committee; the players on the left, reading from left to right are: Frank Edwards, W. R. Miller, J. J. Mellus, Walter Cosby, John W. Wilson, William Frederickson, Nat Wiltshire, Norman Macbeth.**

complicated in time for the scheduled informal opening of the links, April 1.

The most beautiful and ideal spot for a country club in Southern California or anywhere else in this country, for that matter, is the universal verdict of all who have stood on clubhouse hill and viewed almost the entire valley in all directions.

To the south may be seen the waters of the Pacific and intervening valley; to the east the city of Los Angeles even to the business blocks downtown; farther east the snow-clad peaks of old Baldy and companions; to the north, the long range of Sierras and nearer hills of Hollywood; and to the west, still other hills and green valley.

It is out-of-doors in every sense, not cramped by streets and houses nor sheltered from the ocean breeze and sun.

It is not the purpose now to say much of the clubhouse for that is not yet completed or furnished, except the bath-room, locker-room, lounge and grill, which are being touched up for the advent of the golf players, who, being driven from their rented grounds on Pico street, simply must have some place to go.

120 feet. It has two stories and basement. Up stairs are sleeping and living apartments for members, enough for a hotel.

On the ground floor the space is used as follows: Sitting-room, 75x42 feet; dining-room, 45x40 feet, which may be thrown into one with the sitting-room; grill, 42x31 feet; men's locker-room, 36x23 feet; bathroom, containing eleven showers and dressing rooms for eleven more; men's lounge-room, 52x28 feet; kitchen, 52x33 feet. Ladies' department: Music room, 27x20 feet; alcove, 21x18 feet; dressing-room, 27x27 feet; bathroom, 27x23 feet; locker-room, 12x25 feet.

Besides these, are numerous porches, terraces, galleries and offices. This immense structure, probably the largest of its kind in the entire country, is designed to fill the need of the club's large membership, at present, its fast growing needs of local society for will afford for balls, dinners and other social events.

The present greatest interest is centered in the links and tennis courts and it is from the standpoint of the golfer and the tennis player that the writer has viewed the new quarters.

## BRITT-NELSON MATCH MADE.

**[BY DIRECT WIRE TO THE TIMES:] PHILADELPHIA, March 12.—**

[Exclusive Dispatch.] The fight fans of Philadelphia and vicinity will be given a treat the week of April 24, when Jimmy Britt, once lightweight champion of the world, and Bat Nelson, until recently holder of the same title, will meet here once more.

It was Nelson who wrestled the crown from Jimmy's forehead in that memorable San Francisco bout and now the two ex-champions will once more endeavor to see who is the better man. At present Britt is in London, but he has written to O'Brien that just as soon as a contract can be drawn up he will sail for New York and be here to meet his one time vanquisher.

A mutual friend of O'Brien and Britt is responsible for the arrangement and O'Brien is in communication with Bat Nelson, who has given his consent to the meeting. Nelson left Hot Springs, Ark., tonight for Lexington, Ky.

## BIG MATCH IS CLINCHED.

**Wolgaast and Memic Pool Money as Forfeits.**

**Champion Appears in Good Physical Shape.**

**Manager Jones Explains His Man's Condition.**

Manager Tom McCarey clinched the Wolgaast-Memic fight last night, at 10 o'clock, when \$1000 was deposited in each of the fighters as forfeit and weight money, and articles were signed.

Ad Wolgaast's friends and his manager claim that the reports of his condition are untrue and have been circulated for the purpose of influencing the betting.

Wolgaast is at present a 2 to 1 favorite over Memic.

He did not work at his training quarters at Doyle's yesterday but claimed that he took a day off because his condition is so good he did not need it. To prove he is in the pink of condition, Ad will go ten rounds today at Doyle's.

When queried yesterday, Manager

**COUNTRY CLUB IN NEW HOME.**

(Continued from First Page.)

boosters from its very beginning back in the '90s, and yesterday, I can hardly wait until we get out there. The ground right now is better than any place and I know you will all agree with me that it can be beaten for real golf. Whenever I go out there I want to stay."

**THE LINKS DESCRIBED.**

The golf links is laid out upon rolling ground through which run two ravines in barrancas, affording facilities for every variety of play.

Lining these barrancas, which are wide with sides sometimes smooth with gradual slopes and sometimes rugged and steep, are rows of magnificent sycamores.

The total length of the eighteen hole course is 603 yards, and the Green Committee has fixed bogey at 80 and par 78 and it's going to make the best of them work to do the course in par figures.

The first player who does it will be given a medal.

The first hole, named El Primo, is 575 yards. Starting from the north end of the clubhouse, you drive off towards the north over a bunker that yawns deep across the path and up a slight incline. Two long shots reach the green, but it is uphill and few will reach in 2, hence it is made bogey 5 and par 4.

No. 2 runs back towards the clubhouse and tennis courts, driving from an eminence. To the right runs a deep barranca and trouble. It is 327 yards. The second shot must be made with reference to a side hill run down to the green close to the barranca and a pit guarding the green. This hole is called Trouble and well has it been named. Bogey and par are 4.

No. 3, Boulevard, is 306 yards long. The tee is near the clubhouse above the tennis courts and the drive carries you close to the barranca and sycamores. Here comes a fine pitch between trees to a green slightly beyond the deep ravine. Woo unto a topped approach. No running up here. Bogey and par, 4.

**AT THE PIT.**

No. 4, 423 yards, is called the Pit. The tee is down in the ravine, a broad level place, that requires the ball to be lifted well from the tee. A topped ball or a slice is badly punished. To the right runs the line of trees, but a straight ball or pull well up finds no trouble, unless pulled too much. A very long player may reach the green in two strokes, but they must be good and straight, for to the left are sand pits and to the right are the trees and ravine. Most players will require 3 to the green and take 5, which is bogey and par also.

No. 5, Outpost, is 239 yards, over a hill from the tee, across the ravine and between trees. A short drive will fall to get up the hill and a pull will reach trouble in the ravine. A good drive will come within easy approach of the green and bogey and par 4.

The green is in the extreme south-west corner of the grounds, near the Los Angeles Pacific Railway tracks.

No. 6, Lookout, is 690 yards, longest of the 18. The drive is from a high point looking east and over the row of sycamores in the ravine below. It looks ominous, but is not bad and is easy to carry with a reasonable shot. This hole follows along the railroad. Three long shots may reach the green, but bogey is placed at 6 and so is par under the regular distance.

No. 7, Windward, runs 462 yards against the prevailing wind. It parallels 2 to 4. There is trouble enough to the right and a blind approach to the green. And present the least interesting of the holes. Bogey and par 5.

**THE BREAKERS.**

No. 8, 375 yards, is called Breakers on account of a series of bunkers running across the course close together, wholly defying a driven ball that is topped, and making one of the most difficult hazards on the course. A drive and long iron approach will reach the green and perfect play will earn a 4, the most difficult bogey of the course. Par is 4, also. This hole parallels No. 4.

No. 9, Hair Way, 303 yards, is up hill all the way, bunkers ahead and rough ground on both sides. The green lies on sloping ground near the Boulevard and is guarded by sand pits. It requires the most careful play to get 4, bogey. Par is 4.

No. 10 is called Beverly, because play is along Wilshire boulevard and towards Beverly station. Its distance is 496 yards. The green is on the clubhouse on the east side. With the wind, the green may be reached sometimes in 2 but that will not be often done and besides, there are traps around the green to catch a ball slightly off the proper line. Five strokes is a reasonable bogey and par. No. 11 is Dinky and is named after the old short-hole on the Pico Heights course. It is ninety-nine yards in length, shortest of the course; a pitch over the ravine from a high point similar to that of the new historic Dinky. It is bogey and par 3.

No. 12, Round Top is 228 yards along the eastern side of the club property and north of Wilshire boulevard. The green is situated on a knoll and demands great care in getting to the cup. It is well bunkered, also. It may be driven and there will be some 3's, but bogey and par is 4.

No. 13, Hogback runs 381 yards farther north, along a ridge from whence its name. It requires straight and accurate playing for there are pits in the way; out of bounds and rough to the right and bunkers to the left. Par playing will get a 4, while bogey is 5, on account of distance and trouble.

No. 14, The Sentinel is the most picturesque of the holes. It is 423 yards, and is called the Sentinel because it stands guard over the clubhouse and tennis courts. The drive is from a high point looking east and over the row of sycamores in the ravine below. It looks ominous, but is not bad and is easy to carry with a reasonable shot. This hole follows along the railroad. Three long shots may reach the green, but bogey is placed at 6 and so is par under the regular distance.

**ST. GEORGE SONS GIVE SMOKER.**  
*Higgins Boosts Cricket in Absence of Jewell.*  
*Amess and Simmons Indorse Canadian's Project.*  
*British Athletic Association Is Being Formed.*

**BY MARSHALL D. TAYLOR.**  
Cricket was given a boost at the Sons of St. George "smoker" last night, by several well-known local players of this British national game. In the absence of S. Jewell, who is forming a Canadian lacrosse club, and who wishes to affiliate with the Los Angeles Cricket Club, R. J. Higgins, father of cricket in Southern California, gave a brief outline of this game and solicited the support of the members of the lodge.  
"I have always looked upon cricket as part of my religion," began Higgins. "Why cannot we convert the Americans to play this game? We have adapted ourselves to baseball and like the game immensely. If Americans in Southern California would only form a cricket club, similar to those of the eastern cities, they would soon be able to put a team in the field as strong as, if not superior to, that of the Gentlemen of Philadelphia, or Haverford College."  
The Sons of St. George know how to play, and they ought not to be backward in forming a club. They should at least lend their support. Some unkind critics once said that cricket was a mild commotion in a distant field washed down with innumerable cups of tea. But I can honestly say that a league baseball player would think twice before he stopped a hard drive with his bare hands, or stood up to face the swift deliveries of Lane or Wilkes. Cricket is not a parlor game. Certainly we drink tea and very good tea too. Merrett knows all about that. A good cup of tea comes in very handy after a long innings in the sun, and is far better for one's inside than pink lemonade or micro-beating ice cream.  
President Amess of the Sons of St. George thought that cricket should be taken up by the members of the lodge and fully endorsed Higgins' remarks. J. A. Simmons stated that Higgins was one of the finest bats he had ever seen and it was worth the price of carriage to see him in action.  
Amongst those present who are wielders of the willow were: F. E. Fielder, who played for Kent second eleven; J. D. Lennox, who was a member of the Wanderers B team of Johannesburg, South Africa; W. Merrett, the Wykes bowler; C. E. Packman, J. A. Rodes, T. Brown, H. R. Brown, F. Ashton, A. Cooper, Capt. Pascoe, who played for Eton, and some two hundred and twenty members of the Sons of St. George.  
Notice is being sent to all members of the cricket club to be present at a meeting to be held next week, for the purpose of drafting the members of various teams, and also for the purpose of forming a British Athletic Association. This latter proposition is to induce the Fresno and San Diego cricket clubs to join with Los Angeles and Santa Monica to form a combination of lacrosse, cricket, and hockey organizations.

**Victory!**  
**BOWLERS COMING TO LOS ANGELES.**  
**CONGRESS AT SPOKANE VOTES NEXT YEAR'S BATES.**  
Tournament of Western B.C. Is Assured by Unanimous Ballot. Vancouver Delegation Kicks Up Opposition But Is Appeased by Promise of Later Consideration.

(BY DIRECT WIRE TO THE TIMES.)  
SPOKANE (Wash.) March 12.—[Exclusive Dispatch.] Portland has withdrawn in favor of Los Angeles and the 1932 tournament of the Western Bowling Congress is assured the Southern California city by unanimous vote when the delegates convened for the annual business meeting at the Emery Hotel, Wednesday morning.  
The Vancouver delegation offered some resistance to this date, but have been appeased by the promise of the coming year. Reed has been in Spokane since Thursday night and has been button-holing every delegate in the interest of Los Angeles and his journey. His zeal has landed him the big honorary job of the visiting delegations and if the customary schedule is followed out, Reed will be W.B.C. president in 1932.  
The balance of the Los Angeles delegation is expected to arrive today and tonight will mark the appearance of the Grande of Los Angeles, one of the strongest of the visiting aggregations. Between \$200 and \$400 will be divided up among the bowlers in prize money as the outcome of the efforts of Spokane business men to make the big journey a financial success.

**CHURCH LOSES THE RACE.**  
Rushes to Bedside of Father But Fails to Reach Toledo Before Passing of Parent.  
Norman W. Church, Coast representative for the Stoddard-Dayton, did not reach his father's bedside in time to bid farewell to him, who died Saturday night at Toledo, O. Church hurried East Saturday morning, but twelve hours after the train pulled out the race to the sick man's bedside was lost.  
The father of the local autocrat was one of the well-known wholesalers of Ohio. He was senior member of the firm of Church & McCann, O. grocers. He had built up a big business and his passing means the loss of one of Toledo's most prominent business men. His son will remain in Toledo for some weeks settling the affairs of his father.  
For some months, Mr. Church, senior, had been ill with cancer of the stomach. Business cares hastened his end and the son was notified of his

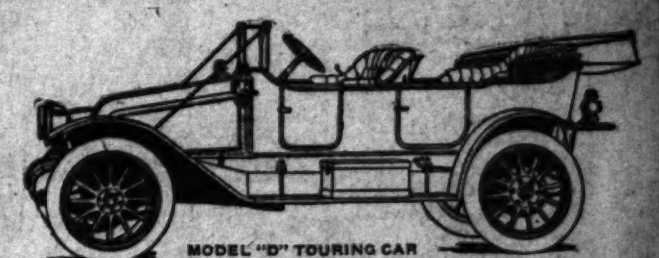

**Helene Sullivan,** one of the most resourceful and accomplished members of the Belasco-Blackwood company. During the past year Miss Sullivan has given satisfactory performances in as great a variety of roles as could be assembled for an actress from the whole repertoire of modern drama.

**IT'S LUCKY FOR JOHN BLACKWOOD THAT LEW STONE WAS A SOLDIER.**

**BY HARRY C. CARR.**  
John Blackwood is a talented young person and the most artistic producer of plays I ever saw; but when it comes to army—  
Well, John knows about enough about army to tell a galling sun from a saddle cantle if both are numbered and strongly identified in the "type line."  
Last night he produced "The Deserters," a rattling good military melodrama. I was unable to wait that long and had to go to the rehearsal in the morning.  
I found Blackwood and Lew Stone in the darkened house watching from the orchestra chairs, the latter waiting his turn to go on.  
The first act opened with two cavalry officers watching at a window while a squadron, with a great thumping of property hoofs, maneuvered on the parade ground by trumpet signals.  
A long blast on the trumpet behind the scenes; a clatter of hoofs.  
"D Troop isn't up to its standard," remarked one of the officers at the window, in a professional tone.  
Clatter, clatter went the hoofs.  
Another long blast on the trumpet.  
One of the officers made another remark and again came the hoof clatter and the blast of the trumpet giving drill signals.  
Mr. Stone, who has been a soldier, and I looked at one another with horror and then at John, who was lost in seraphic admiration of the play.  
"Why John," I gasped, "that trumpet never signals anything except halt."  
"I don't care; that's what it says in the play directions; it's all right to halt, isn't it?" growled Blackwood.  
"They can't keep on halting," interposed Stone. "They halted the first time; the trumpet keeps on tooting for them to halt and I don't see how they can halt any more unless they fall down a hole."  
Blackwood grumblingly instructed the stage director to have the trumpet change the tune.  
Then an orderly entered.  
I could hear Stone groan in his seat in the dark. "Shivering Mores, corporal's chevrons on the colonel's orderly," he muttered in a voice of pain.  
"Well, I don't know what chevrons are; but I don't suppose they will hurt the colonel's orderly, will they?" said John, testily, meantime directing the property man to take them off. "What ever they are," he added in a dark purple vein.  
"Wait just a minute," said John, then all took out for Fuller. He's

**Y.M.C.A. BASKETBALL.**  
Tigers Take the Lead Over the Silent Five—Team Picked to Beat Riverside.  
Results of last week's Y.M.C.A. basketball ball games: Silent Five beat Rogers, 28-14; Cubs defeated Snails, 22-16; Tigers won from Thistles, 41-11.  
With only two more weeks to bring up their averages, the teams in the Y.M.C.A. League are putting in their best ticks to finish with as good showing as possible. All but the Tigers and Silent Fives are eliminated from the race for first place and the Tigers have the long end of the "dope."  
A team is to be picked by Coach Reynolds to play the Riverside Y.M.C.A. on Friday night. The six winners now playing include a number of whirlwind players and the local association is confident of defeating the Riverside quintette and clinching the Y.M.C.A. championship of Southern California.  
Team standing:  
Team..... Played..... Won..... Lost..... P.C.  
Silent Five..... 9..... 7..... 2..... .778  
Cubs..... 9..... 4..... 5..... .444

**WOLGAST-MEMSIC FIGHT.**

(Continued from First Page.)

arms, and he had a slight illness Sunday, but beyond that there is nothing the matter with him. The illness has already disappeared and the injury to his arm has mended long ago. Therefore, it can be safely said that he is in excellent condition, and will enter the ring on St. Patrick's Day ready and willing to defend his championship against Memsic.  
"I will add that nothing will prevent him from fighting Memsic on the 17th but a broken limb, or an accident too serious to speculate on. Both of these, however, are impossible if luck of an ordinary variety favors him."  
When Manager McCarey of the Pacific Athletic Club was queried he repeated Manager Jones' sentiments. "I don't believe that Wolgast is in bad shape," he said. "Ad is usually in excellent condition for his mile and I have never seen an occasion yet where he has failed to keep his promise. I know Wolgast too well to believe for a moment that he would throw me down by not failing to get into condition for the fight."  
"He may have had a slight fever but that happens often with fighters with out serious effect. If they take care of it in time there are no ill effects. The fact that he has not stopped for a moment in his preparation for the battle on St. Patrick's Day, is proof sufficient that he is going to be in top-notch condition."  
The greatest proof of this is all contained about Wolgast's poor condition is that his manager tonight deposited \$1000 with Tom McCarey to assure his appearance on March 17 at 155 pounds, said "Capt. McCarey, Memsic's manager. "The noise made by the \$1000 cries down all rumors concerning Ad's condition. If I was in charge of a man I would not dare deposit such a

Costs More,  
Rate Remains

Manufacture of gas in  
Los Angeles Gas and  
Electric Corporation will pay for oil  
0 cubic feet of gas  
Its consumption of  
rels in excess of  
outlay for oil, due to  
increased consumption  
of \$150,000.

There will be no increase  
the consumer, the rate  
0 cubic feet will continue  
large city rate in the  
proved methods of man-  
tribution help to over-  
cost of oil.

Estimated that 816,000 barrels  
required in the manufacture  
of "gas" in 1911, at a cost  
—an average of \$51,000  
\$1699 a day.

Heavy expenditure will flow  
local channels, for the  
oil used monthly comes  
fields, on the edge of

FACTS  
NANCIES  
WOMEN.

—Chas. F.

When the French monarchs lost their  
heads, the close sleeves cover the  
cuffs, or to form a distinct bodice.

New Dress Accessories.  
The gloves madame will want are to  
be twelve and sixteen button-length  
this season. For all the sleeves are  
short. Paquin's innovation of the flow-  
ing sleeve leaves the elbow bare, un-  
less gloves are longer than twelve-but-  
ton.

The new delicate champagne color  
"goes with" every color of gown so  
perfectly that the gloves are very  
popular. Only a very little differ-  
ence from the skin in tone, it is  
even more becoming in gloves than  
white.

Rosie gloves will be worn with all  
dressy gowns; lace gloves with tail-  
ored suits. If the glove is not white  
but, but not boring. Take out with  
skimmer and set where they will cool.  
To the liquor left in the kettle add  
half pint of white vinegar, six blades  
of mace, twelve whole cloves, twelve  
black peppercorns and a large red pepper,  
minced to small bits. Bring to a boil  
and when the oysters are almost cool  
pour the scalding liquor over them.  
Cover and set in a cool place for  
twenty-four hours. At the end of  
that time put the oysters into glass jars  
and fill to overflowing with the liquor.  
Fasten on airtight lids. If these jars  
are kept in the dark in the refrigerator  
they will be good for a fortnight. As  
soon as a jar is opened the contents  
must be all used.

Three-Layer Apple Pie.

For crust, two cupsful of sifted  
pastry flour, one teaspoonful of salt,  
half a teaspoonful of baking powder,  
two-thirds cupful of half lard and half  
butter, six tablespoonfuls of cold water.  
Sift all dry ingredients, rub in  
shortening with finger tips until it  
crumbles; then stir in the water with  
a fork; take the mass up in both hands  
and press together like a ball of putty;  
now take on floured board and roll  
into thin sheet and line a deep pie tin,  
trimming evenly along edges. Cover  
this with two layers of thinly sliced  
tart apples, with sugar, cinnamon and  
little bit of butter between; then  
strew a few currants over. Now roll  
a very thin layer of paste to fit into  
the pie; cover this again as directed for  
first layer. Cover with a top crust  
in which a few gashes have been cut;  
crimp the edges with a fork and bake  
in a brick oven. Serve with a spoon-  
ful of hard sauce on each helping.

Needlework Notes.

Soft woolen material tears easily, es-  
pecially when there are nails, etc., to  
catch in skirts, and yet it is hard to  
mend them inconspicuously. One  
dressmaker, who has done mending in  
her poorer days, recommends drawing  
the torn edges together with silk thread  
and then placing underneath a piece  
of fabric the size of the tear, like a  
patch. Hold this temporarily in place  
with court plaster and mending tis-  
sue and then darn with the finest of  
stitches across the torn edges, catching  
the darn lightly to the patch under-  
neath.

When turning a hem or measuring a  
skirt to straighten it at the bottom, a  
dressmaker of my acquaintance saves  
herself time and nervous strain by  
marking the place she wants on the  
tape measure with a small paper clip  
—one of the kinds that "stay put."  
Then she does not have to adjust the  
hem desired mark every time she puts  
it in the skirt, but feels automatic-  
ally. In turning a three-  
inch hem, for instance, she will put  
the clip at three and for all practical  
purposes have with her a three-inch  
tape measure.

THEY WEAR THEM IN PARIS.

Tooth Powder  
for clean white beautiful teeth  
and a pure and fragrant breath

MUSIC AND STAGE.  
(Continued from Fifth Page.)

"A Jay Circus," something about as  
subtle and epigrammatic as a large tin  
can on the tail of a six-cylinder dog.  
Mr. Sherman concocted it himself, so  
he knows it's good. Two ruralists of  
the regulation footlight brand attend  
an afternoon recital of a tent show.  
They look alike—exactly alike—and  
much of the shirk comes from mis-  
taken identity, the mistake-maker be-  
ing the circus ringmaster, portrayed  
in raucous lifelikeness by Miss Mabel  
DeForest—no relation to the wireless.  
William Andrus is an accomplice of  
Mr. Sherman in his perpetration. One  
doesn't need glasses nor an ear-  
trumpet to perceive the witticisms of  
this masterpiece. "A Jay Circus" kept  
yesterday afternoon's audience on the  
verge of hysterics for more than twenty  
minutes.

Nelson, juggler, came in minus his  
baggage yesterday, but by accumulat-  
ing a few hats at a second-hand store  
was enabled to go through his act in  
fairly accurate fashion. As a hat  
manipulator Nelson is decidedly hu-  
morous.

Hopie Booth, of rather pleasing ap-  
pearance, has a lame and inane sketch,  
"The Little Blonde Lady." It is merely  
cheap melodrama put into absolutely  
impossible form. The name of George  
M. Cohan is set over the title of this  
work. What abuse Cohan?

The bill is opened by a wheel act  
termed "The Flying Brunettes." Grav-  
ity-defiance of the usual order is  
shown.

Mr. and Mrs. Robert E. Keane have  
a sketch of sentimental appeal, "What  
Money Couldn't Buy."

William Burnside,  
prominent Iowa lumberman, who died  
in this city yesterday.

Paces Away.  
BUSY CAREER  
IS CUT SHORT.

LUMBER MAN OF PROMINENCE  
OBEYS FINAL SUMMONS.

Successful Iowa Citizen Who Came  
Here for His Health, Benefited,  
When Relapse Set in and Demise  
Quickly Followed—Studied Law But  
Pursued Business Paths.

William Burnside, 48 years old, died  
suddenly of heart failure at his resi-  
dence, No. 225 South Alvarado street,  
early Sunday morning. He was presi-  
dent of the Hawkeye Lumber Com-  
pany of Okaloosa, Iowa, which con-  
trolled twenty-three yards in that State.

Mr. Burnside came to Los Angeles  
for his health seven weeks ago, accom-  
panied by his wife and daughter, Miss  
Elizabeth Burnside, who were with  
him when the end came. His health  
had improved and he expected to re-  
turn to Okaloosa and resume his  
work within a few weeks. He became  
ill about 2 o'clock Sunday morning and  
died a few minutes later.

The funeral services will be held this  
afternoon at 4 o'clock at Breese Bros.  
chapel, No. 325 South Figueroa street.  
The ceremonies will be conducted by  
Rev. Mr. Pinkerton, of the First  
United Presbyterian Church, and the  
Rev. James F. Ross, of the Harvard  
Heights United Presbyterian Church,  
of which denomination Mr. Burnside  
was a member. The remains will be  
shipped to Okaloosa tomorrow for in-  
terment. They will be accompanied  
by Mrs. Burnside and her daughter.

Mr. Burnside was born in London-  
derry, O., and was educated at the  
public schools at that place, later at-  
tending Mount Union College. He studied  
law at Galesburg, Ill., but never fol-  
lowed it as a profession. His first ven-  
ture in business was in Mahaska coun-  
ty, Iowa, where in 1873 his health  
failed and he was compelled to retire  
for a few years. He then started in the  
lumber business at Okaloosa, buying a  
small yard there. Since that time the  
business has gradually extended.

BANQUET AT PLAYGROUNDS.

The members of the Slauson Wom-  
an's Club showed Saturday evening  
that playgrounds can be made for  
more than children. They invited all  
of the residents of the Slauson dis-  
trict to a banquet in the clubhouse  
located on the playground. Mayor  
Alexander, Chief of Police Sebastian,  
several of the Councilmen, Mrs. Chal-  
mers Smith, president of the Federa-  
tion of Parent-Teachers' Association,  
the Playground Commission, C. D.  
Raitt, superintendent of playgrounds,  
and about 150 other people were pres-  
ent. Charles Miller, supervisor of  
Playgrounds acted as toastmaster.

SCOTT'S  
EMULSION

IS THE ONLY EMULSION  
IMITATED  
If there was any other  
Emulsion as good as SCOTT'S,  
SCOTT'S would not be the  
only one imitated.

For thirty-five years it has  
been the standard remedy for  
Coughs, Colds, Loss of  
Flesh, Anemia, Bronchitis  
AND  
CONSUMPTION

Be sure to get SCOTT'S, every  
bottle of it is guaranteed, and backed by  
a world-wide reputation.

Beginning this week, Tally's New  
Broadway Theater will change its pro-  
gramme on Tuesdays and Fridays.  
This arrangement will guarantee the  
best selection of motion pictures films  
available. T. L. Tally, proprietor and  
general manager, has just returned  
from some time spent in New York,  
mainly in an investigation of the mo-  
tion-picture industry in the East, and  
the newest developments of film drama  
as well. He asserts that he has  
brought home with him a number of  
ideas which will be distinct innova-  
tions, and will from time to time pre-  
sent them to his patrons.

"An Irish Honeymoon" will be fea-  
tured Friday and, with its comedy,  
good actors and beautiful Irish cost-

New Coats---A Distinctive Fashion

**Experts Explode Hessian Fly**

Hugoboss and Bears Have Innings  
in Chicago Fight Against  
the Insect Invader From Following  
Export Buying by Short and Long

[ASSOCIATED PRESS NEWS REPORT.]

CHICAGO, March 11.—Heavy trading carried down the price of wheat today after experts had declared that the damage from Hessian fly was less than expected.

The market opened at 7-1/8 to 7-9/16, showing a net decline of 7-8 to 10 to 1 1-4. The other chief grain closed with a loss—corn of 1 1/2 to 1 1/4, and oats 1-1/4, provisions being mixed as Saturday night to 7 1/2 down. Wheat which ranged from 91 to 91 1/4, May, ranged from 90 1/2 to 91 1/4. May corn ranged between 49 1/2 and 50, closing in a range of 49 1/2 to 50.

No. 3 yellow clover at 46 1/4 to 46 1/2. May oat varied from 26 3/4 to 27 1/4, with latest figures ranging from 26 1/2 to 27 1/4.

Large purchased provisions, but there was a long run of bids here and west. When the market opened, it was up 1/4 to 1/2 on hams with lard and ribs unchanged to 3/4 decline.

Flour, steady; No. 2 rye, 80; feed or mixing 75 to 76.
